VI. Review Procedure and Evaluation Criteria

A. Review Procedure

The application submitted by the ISSC will undergo dual peer review. The application will be reviewed for scientific and technical merit by a panel of experts based upon the applicable evaluation criteria. If the application is recommended for approval, it will then be presented to the National Advisory Council for their concurrence.

B. Evaluation Criteria

The application will be reviewed and evaluated according to the following criteria:

1. The application clearly states an understanding of the purpose and objectives of the cooperative agreement in the overall seafood safety program; the key role and responsibility of the ISSC; and the steps, with a proposed schedule, for planning, implementing, and accomplishing the activities to be carried out under this project.

2. The application describes the applicant's ability to perform the responsibilities under this project by providing qualified staff. The application also demonstrates that the ISSC has the financial and other resources required for this project.

3. The application specifies the intended approach that ISSC will use to maintain and to continue working with both the States and industry to ensure the exchange of information among the States, industry, and consumers on seafood safety.

In addition, the agency will determine whether the estimated cost of the project is reasonable. The application shall include a detailed budget that shows: (1) Anticipated costs for personnel, travel, communications and postage, equipment, and supplies; and (2) the sources of funds to meet those needs.

VII. Reporting Requirements

FDA requires an annual Financial Status Report (FSR) (SF-269). Under FDA procedures, the original and two copies of this report must be submitted to FDA's Grants Management Office within 90 days of the budget period expiration date. An annual project progress report is also required. The contents of this report shall be suggested by the project officer at a later date.

A final project progress report, FSR, and Invention Statement must be submitted within 90 days from the expiration date of the project period as noted on the Notice of Grant Award.

Program monitoring will be conducted on an ongoing basis, and written reports may be done by the project officer. Monitoring may be in the form of telephone conversations between the project officer/grants management specialist and the principal investigator, and site visits may be made by either program or grants management staff. The results of the visits will be recorded in the official grant file and may be available to the grantee upon request.

VIII. Mechanism of Support

Support for this project will be in the form of a cooperative agreement. This agreement will be subject to all policies and requirements that govern the research grant programs of the Public Health Service, including provisions of 42 CFR part 52 and 45 CFR part 74.

SUPPLEMENTARY INFORMATION:

Background

On November 30, 1995 (60 FR 61634), HUD published a notice in the Federal Register seeking applications from public and private universities in order to provide funding to develop and implement the educational component of HUD's new Community Renaissance Fellows Program. The program will

place 20 Fellows in distressed public housing developments undergoing conversion, for example, to mixed-income or mixed-use projects. HUD hopes, with the assistance of private foundations, to place additional Fellows in comparable projects being undertaken by community development corporations.

The November 30, 1995 notice also announced that HUD would hold a "bidders" conference on January 11, 1996. The purpose of this conference was to explain, in more detail, the background behind this solicitation and clarify application requirements.

Cancellation of Bidders Conference

Because of the partial shutdown of the Federal government, the "bidders" conference scheduled for January 11, 1996 in Washington, D.C. is canceled. It may be rescheduled.

Public Meeting With Interested Vendors for Ordering Reproductions of Still Photographs, Aerial Film, Maps, and Drawings

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of meeting.

SUMMARY: NARA will hold a meeting to discuss the continued privatization of reproduction services for still pictures, aerial film, maps, and drawings. On March 6, 1995, NARA began a test phase of new procedures for the delivery of reproduction services for records which NARA customers request from the Still Picture Branch (NNSP), the Cartographic and Architectural Branch (NNSC), and the Nixon Presidential Materials Staff (NLNP). NARA permitted vendors to set up work stations in College Park, MD, where the still photographs and cartographic and architectural records are housed and made available. The three units referred customer requests for reproduction of these media to the vendors, who determined fees, collected payments, performed the copying work, and mailed the reproductions to the customers. The purpose of this one-year trial program was to: (1) verify the degree to which the privatization of the reproduction order fulfillments of
