Notice of Intent To Prepare An Environmental Impact Statement for Construction of Flood Protection Facilities Along the Santa Margarita River and Replacement of the Basilone Road Bridge at Marine Corps Base Camp Pendleton, CA

Pursuant to the National Environmental Policy Act as implemented by the Council on Environmental Quality regulations (40 CFR Parts 1500-1508), the U.S. Marine Corps intends to prepare an Environmental Impact Statement (EIS) to evaluate the environmental effects of construction of flood protection facilities and replacement of the Basilone Road Bridge at Marine Corps Base (MCB) Camp Pendleton. During the winter of 1993, heavy rains and stormwater runoff resulted in the Santa Margarita River flooding facilities at MCB Camp Pendleton, including Marine Corps Air Station (MCAS) Camp Pendleton. The flood also destroyed the Basilone Road Bridge, a transportation corridor which spans the Santa Margarita River.

The proposed action involves construction of a levee and stormwater control measures to prevent flooding from the Santa Margarita River damaging facilities at MCB/MCAS Camp Pendleton, and construction of a new two-lane bridge to replace the bridge destroyed by the flood.

Alternatives to be addressed in the EIS will focus on methods of implementing flood protection measures, including different levee alignments; alternative stormwater

control facilities, including a detention basin location and a concrete lined flood control channel; and alternative alignments of the Basilone Road Bridge.

Major environmental issues that will be addressed in the EIS include air quality, water quality, traffic, utilities, endangered species and cultural resources.

The Marine Corps will initiate a scoping process for the purpose of determining the extent of issues to be addressed and identifying the significant issues related to this action. The Marine Corps will hold a public scoping meeting on January 25, 1996, beginning at 4:00 pm, at the San Rafael Elementary School, 1616 San Rafael Drive, Oceanside, CA. This meeting will be advertised in area newspapers.

A brief presentation will precede request for public comment. Marine Corps representatives will be available at this meeting to receive comments from the public regarding issues of concern to the public. It is important that federal, state, and local agencies and interested individuals take this opportunity to identify environmental concerns that should be addressed during the preparation of the EIS. In the interest of available time, each speaker will be asked to limit their oral comments to five minutes.

Agencies and the public are also invited and encouraged to provide written comment on scoping issues in addition to, or in lieu of, oral comments at the public meeting. To be most helpful, scoping comments should clearly describe specific issues or topics which the commentator believes the EIS should address. Written statements and or questions regarding the scoping process should be mailed to: Commanding Officer, Southwest Division, Naval Facilities Engineering Command, 1220 Pacific Coast Highway, San Diego, CA 92132-5187, (Attn: Ms. Melanie Ault, Code 232MA), phone number (619) 532-3355. All comments must be received no later than February 12, 1996.

Dated: January 3, 1996.

By direction of the Commandant of the Marine Corps.

Kim G. Weirick,

Acting Head, Land Use and Military Construction Branch, Facilities and Services Division, Installations and Logistics Department.

Columbia Gas Transmission Corp.; Notice of Proposed Changes in FERC Gas Tariff

January 3, 1996.

Take notice that on December 29, 1995, Columbia Gas Transmission Corporation (Columbia) filed a motion to place its suspended rates into effect

on February 1, 1996, and tendered for filing the revised tariff sheets to its FERC Gas Tariff, Second Revised Volume No. 1 and Original Volume No. 2, listed on Appendix A to the filing. The revised tariff sheets on Appendix A bear an issue date of December 29, 1995, and a proposed effective date of February 1, 1996.

Columbia states that it is also tendered for filing the revised tariff sheets listed on Appendix B to the filing, which bear an issue date of December 29, 1995, and a proposed effective date of May 1, 1996. Columbia states that it is not moving the Appendix B tariff sheets into effect at this time, but is reserving the right to move them into effect as of May 1, 1996, or at any time thereafter. Columbia states that the revised filing is being made in accordance with the Commission's suspension order issued August 31, 1995 in this proceeding and 18 CFR 154.206.

Columbia states that in accordance with an agreement between Columbia, Commission Staff and intervenors, the Appendix A tariff sheets reflect a 25% reduction of the filed-for increase (including the impact of the proposed Stranded Facilities Charge (SFC) and Electric Power Cost Adjustment (EPCA)) to all rates except the gathering and processing rates. However, Columbia states that the gathering and processing rates set forth on the Appendix A tariff sheets reflect the lower May 1, 1996, rates for those services. The Appendix A tariff sheets also reflect the correction of a classification error, and revisions to the Stranded Facilities Charge and Section 46 of the General Terms and Conditions of Columbia's tariff required by the suspension order. The Appendix B tariff sheets reflect the correction of a classification error, the changes required by the suspension order, and an adjustment removing certain base period expenses in accordance with Columbia's recent settlement in Docket No. GP94-02, et al. The filing and the Appendix A and Appendix B tariff sheets are explained in greater detail in the transmittal letter accompanying the filing.

Columbia states that copies of its filing have been mailed to all firm customers, interested interruptible customers and affected state regulatory commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure.
