

SUPPLEMENTARY INFORMATION: The San Francisco Bay/Sacramento-San Joaquin Delta Estuary (Bay-Delta system) is a critically important part of California's natural environment and economy. In recognition of the serious problems facing the region and the complex resource management decisions that must be made, the state of California and the Federal government are working together to stabilize, protect, restore, and enhance the Bay-Delta system. The State and Federal agencies with management and regulatory responsibilities in the Bay-Delta system are working together as CALFED to provide policy direction and oversight for the process.

One area of Bay-Delta management includes the establishment of a joint State-Federal process to develop long-term solutions to problems in the Bay-Delta system related to fish and wildlife, water supply reliability, natural disasters, and water quality. The intent is to develop a comprehensive and balanced plan which addresses all of the resource problems. This effort is being carried out under the policy direction of CALFED. A group of citizen advisors representing California's agricultural, environmental, urban, business, fishing, and other interests who have a stake in finding the long term solutions for the problems affecting the Bay-Delta system has been chartered under the Federal Advisory Committee Act (FACA) as the Bay-Delta Advisory Council (BDAC) to advise CALFED on the program mission, problems to be addressed, and objectives for the CALFED Bay-Delta Program. BDAC provides a forum to help ensure public participation, and will review reports and other materials prepared by CALFED staff.

Minutes of the meeting will be maintained by the CALFED Bay-Delta Program, Suite 1155, 1416 Ninth Street, Sacramento, CA 95814, and will be available for public inspection during regular business hours, Monday through Friday within 30 days following the meeting.

INTERNATIONAL TRADE COMMISSION

Certain Cold-Rolled Carbon Steel Flat Products From Germany and the Netherlands

AGENCY: International Trade Commission.

ACTION: Request for comments regarding the institution of section 751(b) review investigations concerning the Commission's affirmative determinations in investigations Nos. 701-TA-340, 731-TA-604, and 731-TA-608 (Final), Certain Cold-Rolled Carbon Steel Flat Products from Germany and the Netherlands.

SUMMARY: The Commission invites comments from the public on whether changed circumstances exist sufficient to warrant the institution of investigations pursuant to section 751(b) of the Tariff Act of 1930 (19 U.S.C. 1675(b)) (the Act), as amended by the Uruguay Round Agreements Act, Pub. L. 103-465 (1994), to review the Commission's affirmative determinations in the above investigations. The purpose of the proposed review investigations is to determine whether revocation of the existing countervailing duty and antidumping orders on imports of certain cold-rolled carbon steel flat products (cold-rolled steel) from Germany and the Netherlands would be likely to lead to continuation or
