

SUPPLEMENTARY INFORMATION: The San Francisco Bay/Sacramento-San Joaquin Delta Estuary (Bay-Delta system) is a critically important part of California's natural environment and economy. In recognition of the serious problems facing the region and the complex resource management decisions that must be made, the state of California and the Federal government are working together to stabilize, protect, restore, and enhance the Bay-Delta system. The State and Federal agencies with management and regulatory responsibilities in the Bay-Delta system are working together as CALFED to provide policy direction and oversight for the process.

One area of Bay-Delta management includes the establishment of a joint State-Federal process to develop long-term solutions to problems in the Bay-Delta system related to fish and wildlife, water supply reliability, natural disasters, and water quality. The intent is to develop a comprehensive and balanced plan which addresses all of the resource problems. This effort is being carried out under the policy direction of CALFED. A group of citizen advisors representing California's agricultural, environmental, urban, business, fishing, and other interests who have a stake in finding the long term solutions for the problems affecting the Bay-Delta system has been chartered under the Federal Advisory Committee Act (FACA) as the Bay-Delta Advisory Council (BDAC) to advise CALFED on the program mission, problems to be addressed, and objectives for the CALFED Bay-Delta Program. BDAC provides a forum to help ensure public participation, and will review reports and other materials prepared by CALFED staff.

Minutes of the meeting will be maintained by the CALFED Bay-Delta Program, Suite 1155, 1416 Ninth Street, Sacramento, CA 95814, and will be available for public inspection during regular business hours, Monday through Friday within 30 days following the meeting.

ACTION: Request for comments regarding the institution of section 751(b) review investigations concerning the Commission's affirmative determinations in investigations Nos. 701-TA-340, 731-TA-604, and 731-TA-608 (Final), Certain Cold-Rolled Carbon Steel Flat Products from Germany and the Netherlands.

SUMMARY: The Commission invites comments from the public on whether changed circumstances exist sufficient to warrant the institution of investigations pursuant to section 751(b) of the Tariff Act of 1930 (19 U.S.C. 1675(b)) (the Act), as amended by the Uruguay Round Agreements Act, Pub. L. 103-465 (1994), to review the Commission's affirmative determinations in the above investigations. The purpose of the proposed review investigations is to determine whether revocation of the existing countervailing duty and antidumping orders on imports of certain cold-rolled carbon steel flat products (cold-rolled steel) from Germany and the Netherlands would be likely to lead to continuation or

recurrence of material injury to the domestic industry within a reasonably foreseeable time. 19 U.S.C. 1675a(a)(1). SUPPLEMENTARY INFORMATION:

Background

On August 18, 1993, the Commission issued affirmative threat of injury determinations with respect to cold-rolled steel in investigations Nos. 701-TA-340, 731-TA-604, and 731-TA-608 (Final), in the context of its determinations in Certain Flat-Rolled Carbon Steel Products from Argentina, Australia, Austria, Belgium, Brazil, Canada, Finland, France, Germany, Italy, Japan, Korea, Mexico, the Netherlands, New Zealand, Poland, Romania, Spain, Sweden, and the United Kingdom, Invs. Nos. 701-TA-319-332, 334, 336-342, 344, & 347-353, and 731-TA-573-579, 581-592, 594-597, 599-609, and 612-619 (Final) (58 FR 43905, Aug. 18, 1993). The Commission's determinations were based on a cumulative assessment of imports from Germany and the Netherlands with imports from, inter alia, the Republic of Korea (Korea). Commerce issued a countervailing duty

order for Germany and antidumping orders for all three countries.

On November 28, 1995, the Commission received a request to review its affirmative determinations with respect to Germany and the Netherlands in the light of changed circumstances (the request), pursuant to section 751(b) of the Act (19 U.S.C. 1675(b)). The request was filed by counsel on behalf of Krupp Hoesch Stahl AG, Preussag Stahl AG, Thyssen Stahl AG, and Hoogovens Groep BV, producers of the subject merchandise in Germany and the Netherlands, and N.V.W. (USA), Inc., an importer of the subject merchandise from the Netherlands. The alleged changed circumstances include: (1) Restructuring of the European steel industry, together with other changes in global market conditions; (2) surges in non-subject imports of cold-rolled steel; (3) the sharp decline of the U.S. dollar against both the Dutch guilder and the German mark; (4) the sharp and unanticipated growth in U.S. production of corrosion-resistant steel pursuant to the antidumping and countervailing duty orders imposed on corrosion-resistant steel, and; (5) the fact that the orders on Germany and the Netherlands resulted from affirmative threat determinations of three Commissioners who cumulated imports from the Netherlands, Germany, and Korea with far greater volumes from other countries.

Written Comments Requested:

Pursuant to § 207.45(b) of the Commission's rules of practice and procedure (19 CFR 207.45(b)), the Commission requests comments concerning whether the alleged changed circumstances are sufficient to warrant institution of review investigations.

Written Submissions:

In accordance with § 201.8 of the Commission's rules (19 CFR 201.8), the signed original and 14 copies of all written submissions must be filed with the Secretary to the Commission, 500 E Street, SW., Washington, DC 20436. All comments must be filed no later than 30 days after the date of publication of this notice in the Federal Register. The Commission's determination regarding initiation of review investigations is due within 30 days of the close of the comment period. Any person desiring to submit a document (or portion thereof) to the Commission in confidence must request business confidential treatment under § 201.6 of the Commission's rules (19 CFR 201.6). Such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why the

Commission should grant such treatment. Each sheet must be clearly marked at the top "Confidential Business Information." The Commission will either accept the submission in confidence or return it. All nonconfidential written submissions will be available for public inspection in the Office of the Secretary.

Copies of the non-business proprietary version of the request and any other documents in this matter are available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission; telephone 202-205-2000.

Issued: January 19, 1996.

By order of the Commission.

Donna R. Koehnke,

Secretary.
