In accordance with sections 353.22(a) and 355.22(a) of the regulations, an interested party as defined by section 353.2(k) may request in writing that the Secretary conduct an administrative review. The Department has changed its requirements for requesting reviews for countervailing duty orders. Pursuant to 19 C.F.R. 355.22(a) of the Department's Interim Regulations (60 FR 25137 (May 11, 1995)), an interested party must specify the individual producers or exporters covered by the order for which they are requesting a review. Therefore, for both antidumping and countervailing duty reviews, the interested party must specify for which individual producers or exporters covered by an antidumping finding or an antidumping or countervailing duty order it is requesting a review, and the requesting party must state why it desires the Secretary to review those particular producers or exporters. If the interested party intends for the Secretary to review sales of merchandise by an exporter (or a producer if that producer also exports merchandise from other suppliers) which were produced in more than one country of origin, and each country of origin is subject to a separate order, then the interested party must state specifically, on an order-by-order basis, which exporter(s) the request is intended to cover.

Seven copies of the request should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, Room B-099, U.S. Department of Commerce, Washington, D.C. 20230. The Department also asks parties to serve a copy of their requests to the Office of Antidumping Compliance, Attention: Pamela Woods, in room 3065 of the main Commerce Building. Further, in accordance with section 353.31(g) or 355.31(g) of the regulations, a copy of each request must be served on every party on the Department's service list.

The Department will publish in the Federal Register a notice of "Initiation of Antidumping (Countervailing) Duty Administrative Review," for requests received by January 31, 1996. If the Department does not receive, by January 31, 1996, a request for review of entries covered by an order or finding listed in

this notice and for the period identified above, the Department will instruct the Customs Service to assess antidumping or countervailing duties on those entries at a rate equal to the cash deposit of (or bond for) estimated antidumping or countervailing duties required on those entries at the time of entry, or withdrawal from warehouse, for consumption and to continue to collect the cash deposit previously ordered.

This notice is not required by statute, but is published as a service to the international trading community.

Dated: January 22, 1996.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance.

SUPPLEMENTARY INFORMATION:

Background

On August 30, 1995, the Department published in the Federal Register (60 FR 45140) the preliminary results of its 1993-94 administrative review of the antidumping duty order on granular PTFE resin from Japan. There was no request for a hearing. The Department has now conducted this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Tariff Act).

Applicable Statutes and Regulations

Unless otherwise stated, all citations to the Tariff Act and to the Department's regulations are references to the provisions as they existed on December 31, 1994.

Scope of the Review

The antidumping duty order covers granular PTFE resins, filled or unfilled. The order explicitly excludes PTFE dispersions in water and PTFE fine powders. During the period covered by this review, such merchandise was classified under item number 3904.61.90 of the Harmonized Tariff Schedule (HTS). We are providing this HTS number for convenience and Customs purposes only. The written description of scope remains dispositive.

The review covers one manufacturer/exporter of granular PTFE resin, Daikin. The review period is August 1, 1993, through July 31, 1994.

Analysis of Comments Received

We gave interested parties an opportunity to comment on the preliminary results. We received a case brief from Daikin.

Issue Raised by Daikin

Daikin claims that, in calculating foreign market value, the Department incorrectly deducted from the unit price an amount representing a price adjustment. Daikin argues that this
