

under APHIS' regulations in 7 CFR part 340. Therefore, the notification requirements pertaining to regulated articles under those regulations no longer apply to the field testing, importation, or interstate movement of corn line Bt11 or its progeny. However, the importation of the subject corn line or seeds capable of propagation is still subject to the restrictions found in APHIS' foreign quarantine notices in 7 CFR part 319.

#### National Environmental Policy Act

An environmental assessment (EA) has been prepared to examine the potential environmental impacts associated with this determination. The EA was prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 et seq.), (2) Regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372; 60 FR 6000-6005, February 1, 1995). Based on that EA, APHIS has reached a finding of no significant impact (FONSI) with regard to its determination that corn line Bt11 and lines developed from it are no longer regulated articles under its regulations in 7 CFR part 340. Copies of the EA and the FONSI are available upon request from the individual listed under **FOR FURTHER INFORMATION CONTACT**.

#### Food Safety and Inspection Service

[Docket No. 95-053N]

#### Nutritional Labeling/Safe Handling Information Study, Raw Meat and Poultry; Availability

**AGENCY:** Food and Safety and Inspection Service, USDA.

**ACTION:** Notice of availability of report.

**SUMMARY:** The Food Safety and Inspection Service (FSIS) is announcing the availability of the report, "Nutritional Labeling/Safe Handling Information Study, Raw Meat and Poultry." This report summarizes survey data on actions taken by food retailers to provide consumers with nutrition information and safe handling instructions on raw meat and poultry products.

**DATES:** Comments may be submitted at any time.

**ADDRESSES:** Submit written comments and requests for single copies of the report to: Charles R. Send a self-addressed, adhesive mailing label to assist the office in processing requests for copies.

**FOR FURTHER INFORMATION CONTACT:** Charles R. Edwards, Director, Product Assessment Division, Regulatory Programs, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 254-2565.

**SUPPLEMENTARY INFORMATION:** On January 6, 1993, FSIS published a final rule, "Nutrition Labeling of Meat and Poultry Products," (58 FR 632) that, in part, established a voluntary nutrition labeling program for single-ingredient, raw meat and poultry products.

To determine if significant numbers of food retailers were participating in the voluntary nutrition labeling program and were providing nutrition labeling for single-ingredient, raw meat and poultry products, FSIS contracted with National Retail Tracking Index, Inc. (NRTI) to collect this data. The survey showed that of the nearly 2,000 grocery stores surveyed nationwide, 66.5 percent were providing nutrition information in accordance with the voluntary nutrition labeling program guidelines. When the results are weighted by the stores' annual sales volumes, the participation level rose to 72.2 percent, comfortably exceeding the target goal of 60 percent.

FSIS will continue to assess retailer participation in the program every two years. If significant participation by food retailers exists, that is, at least 60 percent of all stores that are evaluated are participating in accordance with the guidelines, the voluntary nutrition labeling program will remain in effect.

On March 28, 1994 (59 FR 14528), FSIS made safety handling instructions mandatory on the labels of all raw meat
