Title: Construction of Stand-Alone Cable System by a Carrier in its Exchange Telephone Service Area—Section 63.16, CC Docket No. 87-266.

Estimated Annual Burden: 50 total annual hours; average 1 hour per respondent; 50 respondents.

Description: 47 U.S.C. 214 requires telephone companies to secure certification from the Federal

Communications Commission (FCC) before the construction of any "line" used in interstate communication. To enable the FCC to evaluate whether such a construction is in the public interest, carriers have been required to provide detailed support when requesting Section 214 authorizations. 47 CFR Section 63.16 permits most carriers who can certify that they meet three conditions to secure such authorization for providing service in their local service areas without providing such detailed support.
