

endogenous compounds; and (3) changes in antimicrobial resistance patterns and resistant genetic elements within the microflora.

CVM generally agrees. CVM has identified the following areas for which microbiological residues represent a potential public health concern: (1) Changes in the metabolic activity of the intestinal microflora; (2) changes in antimicrobial resistance patterns of the intestinal microflora; (3) changes in the colonization resistance properties (barrier effect) of the microflora; and (4) changes in the number of microorganisms and composition of the intestinal microflora.

V. Conclusion

The Center specifically invites comments on how to relate the effect produced in the model systems to the identified public health concerns. In addition, information on the appropriate endpoints for monitoring the effects of the different classes of antibiotics is requested. The public has the opportunity to comment on this guidance document at any time. CVM will consider all comments for future modifications of this guidance document.

Guidelines are generally issued under §§ 10.85(a) (21 CFR 10.85(a)) and 10.90(b). The agency is now in the process of revising §§ 10.85(a) and 10.90(b). This guidance document does not bind the agency, and it does not create or confer any rights, privileges, or benefits for or on any person; however, it represents the agency's current thinking on microbiological testing of antimicrobial drug residues in food. A person may follow the guidance document or may choose to follow alternate procedures or practices. If a person chooses to use alternate procedures or practices, that person may wish to discuss the matter further with the agency to prevent an expenditure of money and effort on activities that may later be determined to be unacceptable to FDA.

Interested persons may, at any time, submit to the Dockets Management Branch (address above) written comments on the guidance document. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. The guidance document and received comments are available for public examination in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Received comments will be considered to determine if further revision of the guidance document is necessary.

Dated: January 22, 1996.

Health Resources and Services Administration

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Health Resources and Services Administration (HRSA) will publish periodic summaries of proposed projects being developed for submission to OMB under the Paperwork Reduction Act of 1995. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, call the HRSA Reports Clearance Officer on (301) 443-1129.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the

agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Projects

1. Evaluation of the Community Integrated Service System (CISS) Program—New—Data will be collected by mail and in person to assess demonstration effectiveness for program management purposes. Mail surveys will be conducted with four managers in each of 40 CISS grant funded programs: (1) Project director, (2) supervisor of intake/outreach, (3) medical director or closest equivalent, and (4) supervisors of care coordination. The purposes are to describe the organizational structure, service networks, and expected decision-making patterns prior to the more focussed on-site inquiries. Data subsequently will be collected in person from managers, staff, and clients of the 40 CISS grant-funded programs: (1) Project director and director of grant-receiving institution, (2) managers of each service in the program, (3) staff providing health services, (4) staff providing care coordination and services other than health care, and (5) a sample of clients who agree to participate. Numbers (3) and (4) will respond to focus group protocols. The purposes of the in-person data collection are to assess the day-to-day interaction of the service units, decision strategies employed by managers, and the effect on access for targeted clients. The study will provide the only evaluation to date of the effectiveness of the CISS program. The information will also be used to identify models with promise for replication. Because this data collection is targeted to a limited number of respondents, automated collection techniques will not be used. Burden estimates are as follows:

Respondent type	Number of respondents	Responses per respondent	Average burden per response (hours)	Total burden hours
Project Director	40	1	2	80
Intake/Outreach Supervisor	40	1	1.5	60
Medical Director	40	1	1.5	60
Supervisor of Care Coord	40	1	1.5	60
Proj. Dir./Inst. Dir	80	1	2	160
Service Managers	200	1	2	400
Health Service Staff	400	1	2	800
Care Coord./Other Service Staff	400	1	2	800
CISS clients	200	1	.3	60

Total burden is estimated to be 2,480 hours.

Send comments to Patricia Royston, HRSA Reports Clearance Officer, Room 14-36, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

[Docket No. FR-3481-O-04]

The Secretary of HUD's Regulation of the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac), Final Rule; Announcement of OMB Approval Number

AGENCY: Office of the Secretary, HUD.

ACTION: Announcement of OMB approval number.

SUMMARY: On December 1, 1995 (60 FR 61846), the Department published in the Federal Register, a final rule that implemented the Secretary's regulatory authorities respecting the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corporation ("Freddie Mac") (collectively the "Government-Sponsored Enterprises" or "GSEs") under the Federal Housing Enterprises Financial Safety and Soundness Act of 1992 ("FHEFSSA"). FHEFSSA's purpose is to establish a new regulatory framework for the GSEs that reflects their unique status as shareholder-owned corporations that receive substantial public benefits. The document indicated that information collection requirements contained in the notice had been submitted to the Office of Management and Budget for emergency review and approval under section 3507 of the Paperwork
