

R1E, Platte County, Nebraska, under Northern's blanket certificate issued in Docket No. CP82-401-000, pursuant to Section 7(c) of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Northern states that it is currently providing service to UtiliCorp United Inc. (UCU) at the Columbus #4 TBS delivery point for Minnesota Corn Processors (MCP) for use at their Columbus Plant. Northern requests authorization to upgrade this delivery point to accommodate increased natural gas deliveries for transportation directly to MCP. Northern relates that MCP requested the upgrade of the delivery point and throughput service. Northern states that deliveries will be made pursuant to Northern's currently effective throughput service agreements with MCP. Northern estimates the cost of upgrading the delivery point to be \$128,000, and indicates that will be financed in accordance with the General Terms and Conditions of Northern's FERC Gas Tariff, Fifth Revised Volume No. 1.

Northern states that the proposed increase in volumes to be delivered to MCP at the Columbus #4 TBS delivery point are 8,943 MMBtu on a peak day and 3,200,300 MMBtu on an annual basis. Northern advises that the total volumes to be delivered after the request do not exceed the total volumes authorized prior to the request. Northern states that the proposed activity is not prohibited by its existing tariff and that it has sufficient capacity to accommodate the changes proposed herein without detriment or disadvantage to Northern's other customers.

Northern has included in the filing letters from both UCU and MCP consenting to the abandonment of the Eddie Beck Farm Tap, as service will be provided through the Columbus #4 TBS delivery point instead.

Northern states that it has notified UCU and the affected state Commission of this request.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request.

If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed

and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
