

and wilderness designation. There were very few comments received concerning aircraft use.

This rule was not subject to Office of Management and Budget (OMB) review under Executive Order 12866. The Department of the Interior determined that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The economic effect of this rulemaking are local in nature and negligible in scope.

In accordance with the procedural requirements of the National Environmental Policy Act (NEPA), and by Departmental guidelines in 516 DM 6 (49 FR 21438), an Environmental Assessment (EA) which included consultation with the U. S. Fish and Wildlife Service and a Finding of No Significant Impact (FONSI) have been prepared. These documents can be obtained by contacting the address noted at the beginning of this rulemaking.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 82

[FRL-5406-4]

Protection of Stratospheric Ozone

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed extension of stay.

SUMMARY: In the Rules Section of today's Federal Register, EPA is announcing a three-month administrative stay and reconsideration of a certain reporting requirement in the petition process for the import of used class I controlled substances promulgated under sections 604 and 606 of the Clean Air Act Amendments of 1990. 40 CFR 82.13(g)(2)(viii) requires the importer to certify that the purchaser of the controlled substance is liable for the tax.

This document proposes, pursuant to Clean Air Act section 301(a)(1), to stay temporarily the effectiveness of this provision, and applicable compliance dates, beyond the three-month administrative stay, but only to the extent necessary to complete reconsideration (including any appropriate regulatory action) of the rule in question.

DATES: Written comments on this proposal must be received by March 1, 1996. Requests for a hearing should be submitted to Tom Land by February 12, 1996. Interested persons may contact the Stratospheric Ozone Hotline at the phone number given below to see if a hearing will be held and the date and location of any hearing. Any hearing will be strictly limited to the subject matter of this proposal, the scope of which is discussed below.

ADDRESSES: Written comments on this proposed action should be addressed to Public Docket No. A-92-13, Waterside Mall (Ground Floor) Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460 in room M-1500.

All supporting materials are contained in Docket A-92-13. Dockets may be inspected from 8 a.m. until 5:30 p.m., Monday through Friday. A reasonable fee may be charged for copying docket materials.

FOR FURTHER INFORMATION CONTACT: Tom Land, Stratospheric Protection Division, Office of Air and Radiation, U.S. Environmental Protection Agency (6205-J), 401 M Street, SW., Washington, DC 20460, (202)-233-9185. The Stratospheric Ozone Information Hotline at 1-800-296-1996 can also be contacted for further information.

SUPPLEMENTARY INFORMATION: In the Rules Section of today's Federal Register, EPA announces that pursuant to Clean Air Act section 307(d)(7)(B), 42 U.S.C. 7607(d)(7)(B), it is convening a proceeding for reconsideration of 40 CFR 82.13(g)(2)(viii), which requires an importer petitioning to import used class I controlled substances to certify that the purchaser of the controlled substance is liable for the tax. Readers should refer to that rule for a complete discussion of the background and rules affected. In that rule EPA also announces a three-month stay of that provision during reconsideration. However, if EPA cannot complete reconsideration (including appropriate regulatory action) within the three-month period expressly provided by Clean Air Act Amendments of 1990 § 307(d)(7)(B), then it may be appropriate to extend the stay of this provision until EPA completes reconsideration. By this action, EPA proposes a temporary extension of the stay beyond the three-month administrative stay to the extent necessary to complete reconsideration of the rule in question. If EPA takes final action to impose this proposed stay, the stay will extend until the effective date of EPA's final action following reconsideration of this rule.

By this notice EPA hereby proposes, pursuant to Clean Air Act sections 301(a)(1), 42 U.S.C. 7601(a)(1), a temporary stay of the effectiveness of 40 CFR 82.13(g)(2)(viii) promulgated as a final federal rule (60 FR 24970, May 10, 1995). Please refer to the notice of stay and reconsideration in the Rules section of today's Federal Register for EPA's statement of its reasons for staying and reconsidering this provision. Pursuant to the rulemaking procedures set forth in section 307(d) of the Clean Air Act, EPA hereby requests comment on such a proposed stay.

EPA is proposing this temporary stay of the rule and associated compliance date in order to complete reconsideration of this rule, and,

following the notice and comment procedures of section 307(d) of the Clean Air Act, take appropriate action. If, after reconsideration of these provisions, EPA determines that it is appropriate to impose new requirements that are stricter than the existing rules, EPA will propose an adequate compliance period from the date of final action on reconsideration. EPA will seek to ensure that the affected parties are not unduly prejudiced by the Agency's reconsideration. EPA expects that any EPA proposal regarding changes to the tax liability certification requirement for a petition for the import of used class I controlled substances would be subject to the notice and comment procedures of Clean Air Act section 307(d).

Approval and Promulgation of Implementation Plans; Tennessee: Approval of Revisions To Process Emission Standards for New and Existing Cotton Gins

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Tennessee for the purpose of revising

the current regulations for process emission standards for new and existing cotton gins. These revisions also provide an optional method of using selected controls to demonstrate compliance with the emission standards. In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: To be considered, comments must be received by March 1, 1996.

ADDRESSES: Written comments on this action should be addressed to Karen Borel, at the EPA Regional Office listed below. Copies of the documents relative to this action are available for public inspection during normal business hours at the following locations. The interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the visiting day.

Approval of Maintenance Plan and Designation of Areas for Air Quality Planning Purposes; Ohio

AGENCY: United States Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: The USEPA proposes to approve the redesignation to attainment requests and maintenance plans submitted by the State of Ohio for the Canton (Stark County), and Youngstown (Mahoning and Trumbull Counties), marginal ozone nonattainment areas as revisions to Ohio's State Implementation Plan (SIP) for ozone. In the final rules section of this Federal Register, USEPA is approving the State's SIP revision, as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. The "direct final" approval shall be effective on April 1, 1996, unless USEPA receives adverse or critical comments by March 1, 1996. If USEPA receives comments adverse to or critical of the approval discussed above, USEPA will withdraw this approval before its effective date by publishing a subsequent Federal Register document which withdraws this final action. All public comments received will then be addressed in a subsequent rulemaking document. Any parties interested in commenting on this action should do so at this time. If no such comments are received, USEPA hereby advises the public that this action will be effective on April 1, 1996. The USEPA will not institute a second comment period on this document.

DATES: Comments on this proposed rule must be received on or before March 1, 1996.

ADDRESSES: Written comments should be mailed to: Jay Bortzer, Chief,
