

licensees and fewer reports being filed by general licensees. However, the burden for Agreement State licensees was not included in the previous burden.

Submit, by April 8, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW, (Lower Level), Washington, DC. Members of the public who are in the Washington, DC, area can access this document via modem on the Public Document Room Bulletin Board (NRC's Advance Copy Document Library), NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. ### Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. Type of submission: Revision.
2. The title of the information collection: 10 CFR Part 50.76 "Reporting Reliability and Availability Information for Risk-Significant Systems and Equipment."

3. The form number, if applicable: Not Applicable.

4. How often the collection is required: Annually.

5. Who will be required to report: Licensees for commercial nuclear power reactors.

6. An estimate of the number of respondents: 110

7. The estimated number of annual responses: 110

8. An estimate of the total number of hours needed annually to complete the request: 151,200 (1375 hours per response). In addition, there is a one-time implementation burden of 46,550 hours which, annualized over three years, will be 15,520 hours (141 hours per licensee). Total initial annual burden will therefore be 166,720 hours (1516 hours) per licensee.

9. An indication of whether Section 3507(d), Pub. L. 104-13 applies: Applicable.

10. Abstract: The Nuclear Regulatory Commission (NRC) is proposing to amend its regulations to require that licensees for commercial nuclear power reactors report summary reliability and availability data for risk-significant systems and equipment to NRC. In addition, the records and documentation that provide the bases for the summary data reported to the NRC shall be maintained on site and made available for NRC inspection. This mandatory information would improve the NRC's ability to make risk-effective regulatory decisions consistent with the Commission's policy statement on the use of probabilistic risk assessments. The risk-significant systems and equipment for which data would be provided are a subset of the systems and equipment within the scope of the maintenance rule, 10 CFR 50.65.

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, 2120 L Street, N.W. (Lower Level), Washington, D.C. 20037. Members of the public who are in the Washington, DC, area can access the submittal via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document Library) NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located

outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. The electronic copy of this document will be in the NRC PDR library that can be selected from any FedWorld library. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions should be directed to the OMB reviewer by March 8, 1996: Troy Hillier, Office of Information and Regulatory Affairs, (3150-0011), NEOB-10202, Office of Management and Budget, Washington, D.C. 20503.

Comments can also be submitted by telephone (202) 395-3084.

The NRC Clearance Officer is Brenda Jo Shelton, (301) 415-7233.

Dated at Rockville, Maryland, this 30th day of January, 1996.

### Documents Containing Reporting or Recordkeeping Requirements; Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: NRC Form 241, "Report of Proposed Activities in Non-Agreement States"

2. Current OMB approval number: 3150-0013

3. How often the collection is required: NRC Form 241 must be submitted each time an Agreement State licensee wants to engage in or revise its activities involving the use of radioactive byproduct material in a non-Agreement State. The NRC may waive the requirements for filing additional

copies of NRC Form 241 during the remainder of the calendar year following receipt of the initial form from a person engaging in activities under the general license.

4. Who is required or asked to report:

Any persons who hold a specific license from an Agreement State and want to conduct the same activity in non-Agreement States under the general license in 10 CFR 150.20.

5. The number of annual respondents:

The NRC annually receives approximately 4,600 responses from Agreement States associated with NRC Form 241. These responses include 200 initial reciprocity requests on NRC Form 241, and 1,100 revisions and 3,300 clarifications of the information submitted on the forms.

6. The number of hours needed annually to complete the requirement or request: 1,200 hours

7. Abstract: Under the reciprocity provisions of 10 CFR Part 150, any Agreement State licensee who engages in activities (use of radioactive byproduct material) in non-Agreement States under the general license in Section 150.20 is required to file four copies of NRC Form 241, "Report of Proposed Activities in Non-Agreement States," and four copies of its Agreement State license at least 3 days before engaging in each such activity. This mandatory notification permits NRC to schedule inspections of the activities to determine whether the activities are being conducted in accordance with requirements for protection of the public health and safety.

Submit, by April 8, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW, (Lower Level), Washington, DC. Members of the public who are in the Washington, DC, area can access this document via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document Library), NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the

Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address:

fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 F33, Washington, DC, 20555-0001, or by telephone at (301) 415-7233, or by Internet electronic mail at BJS1@NRC.GOV.

Dated at Rockville, Maryland, this 30th day of January, 1996.

**Documents Containing Reporting or Recordkeeping Requirements: Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review**

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review or continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: NRC Form 450, General Assignment.

2. Current OMB approval number: 3150-0114.

3. How often the collection is required: Once during the closeout process.

4. Who is required or asked to report: Contractors, Grantees, and Cooperators.

5. The number of annual respondents: 150.

6. The number of hours needed annually to complete the requirement or request: 300 hours (2 hours per response).

7. Abstract: During the contract closeout process, the NRC requires the contractor to execute a NRC Form 450, General Assignment. Completion of the

form grants the government all rights, titles, and interest to refunds arising out of the contract performance.

Submit by April 8, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
