Office of Nonproliferation and National Security; Fundamental Classification Policy Review

AGENCY: Office of Nonproliferation and National Security; Energy.

ACTION: Notice.

SUMMARY: The Department of Energy (DOE) announces the availability for public comment of a draft report of the Fundamental Classification Policy Review. Since March 1995, the Fundamental Classification Policy Review Group has examined all areas of classified information falling under Department of Energy responsibility. By releasing the report for comment in draft now, the review panel will be able to give further consideration to stakeholder views before the final report is presented to the Secretary of Energy in April 1996.

DATES: Public comment is requested in writing not later than February 29, 1996.

ADDRESSES: The draft report will be made available for downloading from the Department of Energy Home Page (<http://www.doe.gov>) on the Internet. Comments and requests for hard copies of the draft report should be made to Dr. Glen R. Otey, Deputy Chair, Fundamental Classification Policy Review, Post Office Box 5800, Sandia National Laboratories, Mail Stop 0517, Albuquerque, New Mexico 87185-0517, phone number (505) 844-7006, facsimile number (505) 844-4543.

FOR FURTHER INFORMATION CONTACT: Dr. Glen R. Otey, Deputy Chair, Fundamental Classification Policy Review, Post Office Box 5800, Sandia National Laboratories, Mail Stop 0517, Albuquerque, New Mexico 87185-0517, phone number (505) 844-7006, facsimile number (505) 844-4543.

SUPPLEMENTARY INFORMATION: On March 16, 1995, the Secretary of Energy initiated a year-long review of the Department's classification policies. The review is being chaired by Dr. Albert Narath, formerly President of Sandia National Laboratories, and currently President of Lockheed Martin Corporation's Energy and Environment Sector. Since March 1995, the Review Group has examined all areas of classified information falling under the purview of the Department of Energy to identify which information continues to require protection so as to assure the common defense and security, with the objective of promptly declassifying and releasing all information no longer warranting protection. The Department believes it is critical that the Department of Energy's classification policies and practices, which, by definition, can and do limit access to the Department's activities, reflect the view of the citizens so affected. Throughout the review process, the public has been invited to provide comments and recommendations for consideration on any aspect of the Department's classification policies.

The Fundamental Classification Policy Review is scheduled for completion in April 1996. The report being made available will provide a snapshot of the work in progress. It is expected that research and coordination on some issues will continue through March. By releasing the report in draft now for public comment, the review panel will have another opportunity to give full consideration to stakeholder views before the final report is submitted to the Secretary of Energy in April 1996. The draft report may be revised during interagency review.

Specific declassification actions, once approved, will be publicly announced and implemented by revision of the Department's classification guides. It is anticipated that the implementation process will require approximately one year.

Hard copies of the draft report will be available from the Deputy Chair of the Fundamental Classification Policy Review. The draft report will also be available for downloading from the Department of Energy Home Page (<http://www.doe.gov>) on the Internet.

A. Bryan Siebert,

Director, Office of Declassification, Office of Security Affairs.

Federal Energy Regulatory Commission

Agency Information Collection Under Review by the Office of Management and Budget

February 2, 1996.

AGENCY: Federal Energy Regulatory Commission, DOT.

ACTION: Notice of request submitted for review to the Office of Management and Budget.

SUMMARY: The Federal Energy Regulatory Commission (Commission) has submitted the energy information collection listed in this notice to the Office of Management and Budget (OMB) for review under provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13). Any interested person may file comments on the collection of information directly with OMB and should address a copy of those comments to the Commission, as explained below.

DATES: Comments must be filed on or before March 11, 1996.

ADDRESSES: Address comments to Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Federal Energy Commission Desk Officer, 726 Jackson Place NW., Washington, DC 20503. A copy of the comments should also be sent to Federal Energy Regulatory Commission, Division of Information Services, Attention: Mr. Michael Miller, 888 First Street NE., Washington, DC 20426. Mr. Miller may be reached by telephone at (202) 208-1415 and by e-mail at mmiller@ferc.fed.us.

SUPPLEMENTARY INFORMATION:

Description

The energy information collection submitted to OMB for review contains:

1. *Collection of Information:* FERC-516, "Electric Rate Schedule Filings."

2. *Sponsor:* Federal Energy Regulatory Commission. The Federal Power Act requires each public utility to file for approval of rate schedules, together with related contracts and service conditions. The Commission is authorized to investigate the rates charged by public utilities to determine that the rates, terms and conditions of service are just and reasonable. If they are not, the Commission is authorized to determine and prescribe just and reasonable rates, terms and conditions.

3. *Control No.:* 1902-0096. The Commission is now requesting that OMB approve a three year extension of these mandatory collection requirements.

4. *Necessity of Collection of Information:* Submission of the information is necessary to enable the Commission to carry out its responsibility to assure that electric rates are just and reasonable. Sufficient detail must be obtained for the Commission to make informed decisions concerning the appropriate level of rates and to aide customers and other parties who may wish to challenge the rate proposed by the utility. The information enables the Commission and other parties to examine and evaluate the cost elements comprising the utility's cost of service to determine whether and how much of such cost elements should be included in the utility's rates.

5. *Respondent Description:* The respondent universe currently comprises approximately 328 public utilities, licensees, qualifying small power producers or members of public utility holding companies that are engaged in generation, transmission and sales of electric power.

6. *Estimated Burden:* 828,750 total burden hours (328 respondents, 975 responses annually, 850 average hours per response).

Statutory Authority: Sections 205, 206, 211, 212 and 301 of the Federal Power Act, 16 U.S.C. Sections 824d, 824e, 824j, 824k and 825 (1994).

Lois D. Cashell,

Secretary.

[Project No. 6633-003 California]

Humboldt State University; Availability of Environmental Assessment

February 2, 1996.

In accordance with the National Environmental Policy Act of 1969 and

the Federal Energy Regulatory Commission's (Commission's) Regulations, 18 CFR part 380 (Order 486, 52 FR 47897), the Commission's Office of Hydropower Licensing has reviewed an exemption surrender application for the Davis Creek Hydroelectric Project, No. 6633-003. The Davis Creek Hydroelectric Project is located on Davis Creek in Humboldt County, California. The exemptee is applying for a surrender of the exemption because the project is not economically viable. An Environmental Assessment (EA) was prepared for the application. The EA finds that approving the application would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Commission's Reference and Information Center, Room 1C-1, 888 First Street NE., Washington, DC 20426.

Please submit any comments within 20 days from the date of this notice. Any comments, conclusions, or recommendations that draw upon studies, reports or other working papers of substance should be supported by appropriate documentation.

Comments should be addressed to Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. Please affix Project No. 6633-003 to all comments. For further information, please contact the project manager, Ms. Hillary Berlin, at (202) 219-0038.

Lois D. Cashell,

Secretary.
