

§ 180.481 Prosulfuron; tolerances for residues.

Tolerances that expire on December 31, 1999 are being extended for residues of the herbicide prosulfuron 1-(4-methoxy-6-methyl-triazin-2-yl)-3-[2-(3,3,3-trifluoro propyl)-phenylsulfonyl]-urea in or on the following raw agricultural commodities:

Commodities	Parts per million
Corn, forage	0.01
Corn, fodder	0.01
Corn, grain and fresh (including sweet kernels plus cobs with husks removed)	0.01
Milk	0.01
Meat, fat, kidney, liver & meat by-products, of cattle, goats, hogs, horses, and sheep of cattle, goats, sheep	0.05

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 2 and 25

[ET Docket No. 96-20, RM-8638; FCC 96-55]

Fixed-Satellite Service

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: By this *Notice of Proposed Rule Making (NPRM)*, the Commission proposes to allocate the 13.75-14.0 GHz band to the Fixed-Satellite Service ("FSS") on a co-primary basis for Earth-to-space ("uplink") transmissions. Adoption of this proposal would accommodate growing demand for FSS services and would provide satellite operators with increased flexibility in the design of their systems.

DATES: Comments must be submitted on or before April 1, 1996 and reply comments must be submitted on or before April 16, 1996.

ADDRESSES: Comments and reply comments should be sent to Office of the Secretary, Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Tom Mooring, Office of Engineering and Technology, (202) 418-2450.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *NPRM* in ET Docket No. 96-20, adopted on February 13, 1996, and released on February 23, 1996. The complete *NPRM* is available for inspection and copying

during normal business hours in the FCC Reference Center (Room 239), 1919 M Street, N.W., Washington, D.C., and also may be purchased from the Commission's duplication contractor, International Transcription Service, (202) 857-3800, 2100 M Street, N.W., Suite 140, Washington D.C. 20037.

Summary of NPRM

1. The Commission proposes to amend Part 2 of its rules to allocate the 13.75-14.0 GHz frequency band to the FSS on a co-primary basis for uplink transmissions and to make conforming revisions to the associated service rules in Part 25. The FSS is a radiocommunication service between earth stations at a specified fixed point or any fixed point within specified areas and one or more satellites. In some cases this service includes satellite-to-satellite links, which may also be operated in the inter-satellite service. The FSS may also include feeder links for other space radiocommunication services. In addition, the Commission proposes to adopt domestically the international footnotes that specify the spectrum sharing criteria between incumbent services and the FSS as contained in the United States Proposals for the 1995 World Radiocommunication Conference ("WRC-95"). The Commission notes that WRC-95 has recently concluded and that it adopted most of the United States' proposals. The Commission is reviewing the decisions made at WRC-95 and will consider the international footnotes adopted for the 13.75-14.0 GHz band later in this proceeding. The Commission also proposes to adopt a United States footnote that would require that all FSS applications requesting the use of any frequency in the 13.75-13.8 GHz band segment be coordinated in order to minimize harmful interference to the Federal Government's Tracking and Data Relay Satellite System. This action would be consistent with the international allocation for this band made at the 1992 World Administrative Radio Conference, and would provide incumbent operations in this band with adequate interference protection from FSS uplinks.

[WT Docket No. 96-1, FCC 96-2]

Automatic Operation of Aeronautical Advisory Stations (Unicom)

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission has adopted a *Notice of Proposed Rule Making (NPRM)* which seeks to permit unattended, automatic operation of aeronautical advisory stations (unicom) to enhance service to the general aviation community. This action stems from a Petition for Rule Making filed by Potomac Aviation Technology Corporation (PATC). The proposed rules would facilitate more efficient use of previously-allocated radio spectrum, make unicom services more widely available within the general aviation community, and increase safety in air navigation.

DATES: Comments must be filed on or before March 29, 1996, and reply comments must be filed on or before April 29, 1996. Written comments by the public on the proposed and/or modified information collections are due on or before March 29, 1996, and reply comments on or before April 29, 1996. Written comments must be submitted by the Office of Management and Budget (OMB) on the proposed and/or modified information collections on or before May 6, 1996.

ADDRESSES: Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554. In addition to filing comments with the Secretary, a copy of any comments on the information collections contained herein should be submitted to Dorothy Conway, Federal Communications Commission, Room 234, 1919 M Street, NW., Washington, DC 20554, or via the Internet to dconway@fcc.gov, and to Timothy Fain, OMB Desk Officer, 10236 NEOB, 725-17th Street, NW., Washington, DC 20503 or via the Internet to fain-t@al.eop.gov.

FOR FURTHER INFORMATION CONTACT: Roger Noel of the Wireless Telecommunications Bureau at (202) 418-0680. For additional information concerning the information collections contained in this *NPRM* contact Dorothy
