

service providers will use to submit information annually about program and client characteristics. The data collected will be used within and

outside MCHB and HRSA to inform the administration and Congress about the Title IV program and will be used by grantees and MCHB for other planning

and policy efforts. Burden estimates are as follows:

| Type of form | Number of respondents | Responses per respondent | Average hours per response | Total burden hours |
|---|-----------------------|--------------------------|----------------------------|--------------------|
| Designation of Local Reporting Entities | 38 | 1 | 0.5 | 19 |
| Local Network Profile | 110 | 1 | .5 | 55 |
| Service Mix Profile | 110 | 1 | 2.8 | 308 |
| Demographic and Clinical Status | 110 | 1 | 33.0 | 3,630 |
| Service Utilization Summary | 110 | 1 | 20.0 | 2,200 |
| Prevention and Education Activities | 110 | 1 | 4.0 | 440 |

Estimated Total Annual Burden: 6652 hours.

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: Virginia Huth, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, D.C. 20503.

Dated: March 6, 1996.

J. Henry Montes,
Associate Administrator for Policy Coordination.

Proposed Data Collection; Comment Request

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the National Institutes of Health (NIH), National Cancer Institute (NCI) will publish periodic summaries of proposed projects. To request more information on the proposed project, call Amy F. Subar, Ph.D., Nutritionist, or Susan M.

Krebs-Smith, Ph.D., Nutritionist, at (301) 496-8500.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proposed performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Amy F. Subar, Ph.D., Susan M. Krebs-Smith, Ph.D., National Cancer Institute, EPN 313, 6130 Executive Blvd., MSC 7344, Bethesda, MD 20892-7344. Written comments should be received by (Federal Register insert the date 60 days following the date of publication).

Proposed Project: Followup Survey of the National 5 A Day for Better Health Program—New—This study will measure five year trends in fruit and vegetable intakes and in knowledge, attitudes, and benefits about diet and

nutrition specific to fruit and vegetable intake. The purpose of this study is to evaluate the effectiveness of the National 5 A Day for Better Health Program in the first five years of its existence. Two questionnaires will be administered concurrently via telephone to separate national samples of households, with an oversampling of African Americans and Hispanics. Methods, sampling, and techniques will be as similar as possible to that conducted in the original Baseline Survey. The difference between the samples will be in the survey instruments administered. The first, long questionnaire is the instrument used in the original 5 A Day Baseline Survey. The second, short questionnaire will obtain similar information to that collected using the long questionnaire. Because of concern for response rates and possible biases associated with low response rates, a survey of non-respondents from the long survey will also be conducted. This survey will use methods as similar as possible to those employed in the non-respondent survey to the 1991 Baseline Survey. Study participants will be U.S. adults 18 years and old residing in these coterminous states. Burden estimates are as follows:

| | No. of respondents | Instrument type | No. of responses per respondent | Avg burden/response |
|--------------------|--------------------|-----------------|---------------------------------|---------------------|
| Group 1 | 2,000 | Long | 1 | .501 hrs. |
| Group 2 | 2,050 | Short | 1 | .251 hrs. |
| Non-Response | 150 | Response | 1 | .167 hrs. |

Dated: March 1, 1996

Philip D. Amoruso,
NCI Executive Officer.
