## NUCLEAR REGULATORY COMMISSION

### 10 CFR Parts 19, 30, 51, 52, and 55

RIN 3150-AF42

#### Minor Correcting Amendments

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Final rule.

**SUMMARY:** The Nuclear Regulatory Commission (NRC) is amending its regulations to correct several miscellaneous errors in the Code of Federal Regulations (CFR). This document is necessary to inform the public of these corrective changes to NRC regulations.

**EFFECTIVE DATE:** March 12, 1996.

**FOR FURTHER INFORMATION CONTACT:** Michael T. Lesar, Chief, Rules Review Section, Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301) 415-7163.

#### SUPPLEMENTARY INFORMATION:

##### Background

The Nuclear Regulatory Commission is amending the regulations in 10 CFR Parts 19, 30, 51, 52, and 55 to correct several miscellaneous errors in regulatory text. These changes in CFR

text occurred in the process of preparing and printing of rulemaking documents.

In particular, under § 30.72, Schedule C, the entry for C-14 only applies to non-carbon dioxide forms. This rule was first published in the Federal Register on April 7, 1989 (54 FR 14051) and the explanatory note for C-14 in the table, as printed in the final rule, appears to read "non CO," rather than "non CO<sub>2</sub>." In a subsequent reprinting of § 30.72 in the Code of Federal Regulations, this note was inadvertently omitted. This correction replaces the explanatory note for the C-14 entry in the table.

Because this is an amendment dealing with agency organization, practice, and procedure, the notice and comment provisions of the Administrative Procedure Act do not apply pursuant to 5 U.S.C. 553(b)(A). The amendment is effective upon publication in the Federal Register. Good cause exists to dispense with the usual 30-day delay in the effective date because the amendment is of a minor and administrative nature dealing with corrections to certain CFR sections.

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(2). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

#### Paperwork Reduction Act Statement

This final rule does not contain a new or amended information collection requirement subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). Existing requirements were approved by the Office of Management and Budget, approval numbers 3150-0044, -0017, -0021, -0151, and -0018.
