**Agency Information Collection
Activities: Proposed Collection;
Comment Request**

AGENCY: National Cemetery System, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: As part of its continuing effort to reduce paperwork and respondent burden, National Cemetery System (NCS) invites the general public and other Federal agencies to comment on this information collection. This request for comment is being made pursuant to the Paperwork Reduction Act of 1995 (Public Law 104-13; 44 U.S.C. 3506(c)(2)(A)). Comments should address the accuracy of the burden estimates and ways to minimize the

burden including the use of automated collection techniques or the use of other forms of information technology, as well as other relevant aspects of the information collection.

DATES: Written comments and recommendations on the proposal for the collection of information should be received on or before May 13, 1996.

ADDRESSES: Direct all written comments to Robert Kline, National Cemetery System (401A1), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420. All comments will become a matter of public record and will be summarized in the NCS request for Office of Management and Budget (OMB) approval. In this document NCS is soliciting comments concerning the following information collection:

OMB Control Number: 2900-0232.

Title and Form Number: Verification of Eligibility for Burial in a National Cemetery, VA Form 40-4962.

Type of Review: Extension of a currently approved collection.

Need and Uses: The information is used to verify and determine eligibility for burial in a national cemetery and to establish permanent records of interments.

Current Actions: Cemetery directors now collect the information via the Burial Operation Support System (BOSS). BOSS is an automated program used to verify and determine eligibility and replaces the need for the routine use of VA Form 40-4962. The next-of-kin (or veteran) may provide an honorable discharge document to a cemetery director which would accelerate the verification and determination procedure. However, a majority of the requests for burial are made by telephone, and primarily by a funeral director. Many times discharge documents are unavailable to the next-of-kin, funeral director, or person making the final arrangements. The necessary information needed to verify and determine eligibility is entered into BOSS by the cemetery director. The information collected also provides a means whereby other documents can be completed. Inscription data for headstones or markers, scheduling of interments, preparation for the number of attendees, honor, etc., are noted in BOSS to facilitate a burial. VA Form 40-4962 is a basic working document that is used during BOSS downtime to collect information and then supply input for required forms or permanent documents, and indicates action to be taken.

Affected Public: Individuals or households.
