## Agricultural Research Service

### Notice of Intent To Grant Exclusive License

**AGENCY:** Agricultural Research Service, USDA.

**ACTION:** Notice of intent.

**SUMMARY:** Notice is hereby given that the U.S. Department of Agriculture, Agricultural Research Service, intends to grant to Biotechnology Research and Development Corporation of Peoria, Illinois, an exclusive license for U.S. Patent Application Serial No. 08/095,552, filed July 26, 1993, entitled "A Composition Containing 2-Deoxy-D-Glucose and *Candida saitoana* and Method of Use for the Biological Control of Postharvest Diseases," and U.S. Patent Application Serial No. 08/336,079, filed November 7, 1994, entitled "Bioactive Coating for Harvested Commodities." Notice of Availability for U.S. Patent Application Serial No. 08/095,552 was published in the Federal Register on September 24, 1993, and Notice of Availability for U.S. Patent Application Serial No. 08/336,079 was published in the Federal Register on April 19, 1995.

**DATES:** Comments must be received on or before May 13, 1996.

**ADDRESSES:** Send Comments to: USDA, ARS, Office of Technology Transfer, Room 415, Building 005, BARC—West, Baltimore Boulevard, Beltsville, Maryland 20705-2350.

**FOR FURTHER INFORMATION CONTACT:** June Blalock of the Office of Technology Transfer at the Beltsville address given above; telephone: 301-504-5989.

**SUPPLEMENTARY INFORMATION:** The Federal Government's patent rights to this invention are assigned to the United States of America, as represented by the Secretary of Agriculture. It is in the

public interest to so license this invention as Biotechnology Research and Development Corporation has submitted a complete and sufficient application for a license. The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within sixty days from the date of this published Notice, the Agricultural Research Service receives written evidence and argument which establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

R. M. Parry, Jr.,

Assistant Administrator.

## Forest Service

### Rocky Mountain Region; Environmental Impact Statement for the Stevens Gulch Road and Related Timber Sales, Grand Mesa, Uncompahgre and Gunnison National Forests, Delta County, CO

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of intent to supplement a final environmental impact statement.

**SUMMARY:** The Forest Service will prepare a supplement to the final environmental impact statement for the Stevens Gulch Road and Related Timber Sales located on the Gunnison National Forest, Paonia Ranger District.

**DATES:** Comments concerning the scope and issues of the analysis should be received 45 days after publication of the Draft Supplement to the Final EIS: April, 1996. Final Supplement to the Final EIS: June, 1996.

**ADDRESSES:** Send written comments to Ray Kingston, District Ranger, Paonia Ranger District, P.O. Box 1030, Paonia, CO 81428.

**FOR FURTHER INFORMATION CONTACT:** Carol McKenzie, Silviculturist, Forest Supervisor's Office, 2250 Hwy 50, Delta, CO, Gunnison, CO 81416, (970) 874-7691 or Andrea Wang, Wildlife Biologist, Paonia Ranger District, P.O. Box 1030, Paonia, CO 81428, (970) 527-4131.

**SUPPLEMENTARY INFORMATION:** The Forest Service is proposing to prepare a supplement to the final environmental impact statement for the Stevens Gulch Road and Related Timber Sales. In accordance with FSH 1909.15 the final environmental impact statement for the

Stevens Gulch road and Related Timber Sales has been reviewed by an interdisciplinary team. Significant new information have been discovered. The Forest Service is considering alternatives to change the Record of Decision in relation to the timing of use of existing and future roads within the Stevens Gulch project area used by active timber sales; and, mitigation measures to protect species identified in the updated Biological Evaluation and Biological Assessment. The scope and analysis of the proposed supplement to the Final EIS will be limited to these alternatives and mitigation measures.

The original Notice of Intent for this project was published in the Federal Register Vol. 108, No. 49, June 4, 1985 Page 23092. A Record of Decision and Final environmental impact statement were approved September 12, 1986 by then Forest Supervisor Evans. This decision was upheld on August 7, 1987 by then Regional Forester Cargill. A second level appeal was then filed on September 8, 1987 to the Chief of the U.S. Forest Service. Regional Forester Cargill's decision was upheld on October 24, 1988.

The comment period on the draft supplemental final environmental impact statement will be 45 days from the date the Environmental Protection Agency's notice of availability appears in the Federal Register.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft supplemental environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could have been raised at the draft stage may be waived if not raised until after completion of the final supplemental environmental impact statement. *City of Angoon v. Hodel*, (9th Circuit, 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections re made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final supplement to the final environmental impact statement.
