#### Notice of Intent To Amend Plan

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of intent to prepare a proposed plan amendment.

**SUMMARY:** This notice is to advise the public that the Bureau of Land Management proposes to amend the Cedar-Beaver-Garfield-Antimony Resource Management Plan and the Paria and Escalante Management Framework Plans to allow for land tenure adjustments in Garfield & Kane counties not identified in the current plans.

**DATES:** The comment period on the proposed amendment will commence with publication of this notice. Comments are due by no later than April 15, 1996.

**FOR FURTHER INFORMATION CONTACT:** Gregg Christensen, Acting Field Office Manager, Escalante Field Office, 755 West Main, P.O. Box 225, Escalante, Utah 84726, 801-826-4291.

**SUPPLEMENTARY INFORMATION:** The proposal will amend the referenced plans to create criteria for disposal of lands while protecting important public land resources. Establishing disposal criteria allows flexibility in making exchanges for enhanced management while protecting Public Land values. Further NEPA documentation will occur on individual land disposals as they are proposed. Proposed exchange criteria are as follows: (1) land tenure adjustments would be considered where such adjustments are in the public interest and accommodate the needs of state and local entities, including needs for the economy, community growth and expansion and are in accordance with other land use goals and objectives and RMP/MFP planning decisions; (2) land tenure adjustments result in a net gain of important and manageable resource values on public lands such as critical wildlife habitat, significant cultural sites, high quality riparian areas, live water, Threatened & Endangered Species habitat, or areas key to the maintenance of productive ecosystems; (3) land tenure adjustment ensures the accessibility of public lands in areas where access is needed and cannot otherwise be obtained; (4) land tenure adjustment is essential to allow effective management of public lands in areas where consolidation of ownership is necessary to meet resource management objectives; (5) land tenure adjustment results in the acquisition of lands which serve a national priority as identified in national policy directives.

These plans are being updated through the preparation of a more comprehensive Kanab/Escalante Resource Management Plan which is currently on hold and a completion date is uncertain. The amendment now being initiated will be incorporated into this plan.

Dated: March 7, 1996.
