

allocation is as follows: Allocate R1 to eligible Class 1 customers and R2 to eligible Class 2 customers. Allocate excess R1 proportionally to remaining Class 1 Requirements Power purchases and excess R2 proportionally to remaining Class 2 Requirements Power purchases. Iterate until all R1 and R2 is used. Use $S1/(\Sigma S1+\Sigma S2) * (RBPA - \Sigma RT)$ for allocating to remaining Class 1 Requirements Power purchases. Use $S2/(\Sigma S1+\Sigma S2) * (RBPA - \Sigma RT)$ for allocating to remaining Class 2 Requirements Power purchases. Follow steps for Class 3 and Class 4 in sections 2(d)(3)(C) and 2(d)(3)(D).

Formula 2: If

$RBPA - (\Sigma S1+\Sigma S2+\Sigma R4) \geq \Sigma S3$, all Class 3 customers receive an allocation equal to their respective Requirements Power purchases. Go to Formula 3. Otherwise: Class 3 customers' allocation is as follows: $S3/\Sigma S3 * (RBPA - \Sigma S1 - \Sigma S2 - \Sigma R3 - \Sigma R4) + R3$. Allocate excess R3 proportionally to remaining Class 3 Requirements Power purchases. Iterate until all R3 is used. Class 4 customers' allocation is as follows: Allocate R4 to eligible Class 4 customers. Allocate excess R4 proportionally to remaining Class 4 Requirements Power purchases. Iterate until all R4 is used. Finished calculation for 1 month. Return to Formula 1 to proceed with monthly calculation.

Formula 3: If

$RBPA - (\Sigma S1+\Sigma S2+\Sigma S3) \geq \Sigma S4$, there is no insufficiency in this month. All customers receive an allocation equal to their Requirements Power purchases. Finished calculation for 1 month. Return to Formula 1 to proceed with monthly calculation. Otherwise: Class 4 customer's allocation is as follows: $S4/\Sigma S4 * (RBPA - \Sigma S1 - \Sigma S2 - \Sigma S3 - \Sigma R4) + R4$. Allocate excess R4 proportionally to remaining Class 4 loads. Iterate until all R4 is used. Finished calculation for 1 month. Return to Formula 1 to proceed with monthly calculation.

These provisions will be revised only if BPA secures the agreement of all affected customers.

Issued in Portland, Oregon on February 27, 1996.

Randall W. Hardy,

Administrator and Chief Executive Officer.

Yakima Fisheries Project

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of Availability of Record of Decision (ROD).

SUMMARY: This notice announces the availability of the ROD to implement Alternative 2 of the proposed Yakima Fisheries Project to undertake fishery research and mitigation activities in the Yakima River Basin in south-central Washington. The project responds directly to a need for knowledge of viable means to rebuild and maintain naturally spawning anadromous fish stocks in the Yakima Basin. Alternative 2 would experimentally supplement depressed populations of upper Yakima spring chinook salmon that spawn naturally, as well as undertake a study to determine the feasibility of re-establishing a naturally spawning population and significant fall fishery for coho salmon (now eliminated in the basin). The following facilities would be built: a central hatchery at Cle Elum; and three sites with six raceways each for acclimation and release of spring chinook smolts at Clark Flat, Easton, and Jack Creek. Alternative 2 was selected for its potential for increasing knowledge of supplementation, while increasing the number of upper Yakima spring chinook returning to the basin. Anadromous fish populations should also increase more quickly, and harvest opportunities should increase.

ADDRESSES: Copies of the Yakima Fisheries Project Environmental Impact Statement (EIS), the Yakima Fisheries Project EIS Summary, and the ROD may be obtained by calling BPA's toll-free document request line: 1-800-622-4520.

FOR FURTHER INFORMATION CONTACT: Nancy Weintraub, Environmental Project Lead-ECN, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon, 97208-3621, phone number (503) 230-5373, fax number (503) 230-5699.

Issued in Portland, Oregon, on March 13, 1996.

Energy Information Administration

Agency Information Collection Activities; Proposed Collection; Comment Request

AGENCY: Energy Information Administration, DOE.

SUMMARY: The Energy Information Administration (EIA) is soliciting comments concerning the extension of

EIA-882(T), "Generic Clearance for Testing, Evaluation, and Research."

DATES: Written comments must be submitted on or before May 20, 1996. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below of your intention to do so as soon as possible.

ADDRESSES: Send comments to Herbert T. Miller, Office of Statistical Standards, FAX: 202 426-1083, e-mail: hmiller@EIA.DOE.GOV, Energy Information Administration, EI-73, U.S. Department of Energy, 1000 Independence Avenue, S.W., Washington, D.C. 20585, (202) 426-1103.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Mr. Miller at the address listed above.

SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions
- III. Request for Comments

I. Background

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Public Law No. 93-275) and the Department of Energy Organization Act (Public Law No. 95-91), the Energy Information Administration is obliged to carry out a central, comprehensive, and unified energy data and information program. As part of this program, EIA collects, evaluates, assembles, analyzes, and disseminates data and information related to energy resource reserves, production, demand, and technology, and related economic and statistical information relevant to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

The Energy Information Administration, as part of its continuing effort to reduce paperwork and respondent burden (required by the Paperwork Reduction Act of 1995 (Public Law 104-13)), conducts a presurvey consultation program to provide the general public and other Federal agencies with an opportunity to comment on proposed and/or continuing information collections. This program helps to ensure that requested data can be provided in the desired format, reporting burden is minimized, reporting forms are clearly understood, and the impact of collection requirements on respondents can be properly assessed.
