Applications Not Requiring a Fee

Governmental entities are exempt from the \$490.00 fee. As defined by the Commission's rules, governmental entities include "any possession, state, city, county, town, village, municipal corporation or similar political organization or subpart thereof controlled by publicly elected and/or duly appointed public officials exercising sovereign direction and control over their respective communities or programs." Also exempted from this fee are noncommercial educational FM and full-service television broadcast station licensees seeking to make major changes in the facilities of their existing low power television or television translator stations, *provided* those stations operate or will be operated on a noncommercial educational basis. A licensee or permittee of a low power television or television translator station, which is filing a major change application and which earlier obtained either a fee refund because of a NTIA facilities grant for that station or a fee waiver because of demonstrated compliance with the eligibility and service requirements of Section 73.621 of the Commission's Rules, is similarly exempt from payment of the \$490.00 fee. See Section 1.1112 of the Commission's Rules. To avail itself of any fee exemption an applicant must indicate its eligibility by checking the most appropriate box in Question 2, Section I of FCC Form 346 (March 1996 edition). Again, the March 1996 edition of FCC Form 346 can be obtained by calling the FCC Forms Distribution Center or the FCC's Fax-On-Demand system.

Title: Emergency Management Exercise Report System (EMERS).

Type of Review: Extension of a currently approved information collection.

Form Numbers: FEMA Form 95-44. An automated reporting system that mirrors the form is also being used.

Abstract: EMERS is an annual exercise/training reporting system that identifies emergency functions that are major components of an effective emergency management preparedness, response and recovery program. The functions are: alert notification; communications; coordination and control; emergency public information (effectiveness); damage assessment; health and medical; individual/family assistance; public safety; public works; resource management; warning; and effectiveness of warning. The completed EMERS form is submitted by States to FEMA Headquarters, through the appropriate Regional Office. Headquarters staff uses the information to evaluate the effectiveness of program elements and sub-elements as demonstrated in an actual disaster response. The data be useful in determining annual program emphasis, budgetary levels, or changes in or initiation of new policies and guidance; determining necessary changes, improvements or initiatives in training programs required to support State and local emergency managers; identifying potential problem areas that could be expected to arise in State and local jurisdictions, and improving Federal, State, and local disaster relief and assistance relationships; and supporting FEMA's annual budget request.

The process of completing an EMERS form is useful to the State and local jurisdictions affected by disaster. It provides a format for reviewing actual response capability and noting those areas where some remedial actions may be required, serving as the basis for a post-disaster critique. States and local governments may also request exercise credit for actual response operations in

Presidentially declared or undeclared disasters.

Affected Public: State, local or tribal governments.

Number of Respondents: States—56; Local jurisdictions—3,200.

Estimated Total Annual Burden Hours: 3,000.

COMMENTS: Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Comments should be received within 60 days of the date of this notice.

ADDRESSES: Direct all comments to Muriel B. Anderson, FEMA Information Collections Officer, Federal Emergency Management Agency, 500 C Street, SW., Room 311, Washington, DC 20472. Telephone number (202) 646-2625. FAX number (202) 646-3524.
