 Renewal for Application Requirements

for the Approval and Delegation of Federal Air Toxics Programs to State and Local Agencies, OMB No. 2060-0264 (ICR # 1643.02), expiration date July 31, 1996. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before May 21, 1996.

FOR FURTHER INFORMATION CONTACT: Mr. Gil Wood, (919) 541-5272 (phone)/(919) 541-4028 (fax).

SUPPLEMENTARY INFORMATION: Affected Entities: Entities potentially affected by this action are State and local agencies participating in this voluntary program.
 Title: Renewal for Application Requirements for the Approval and Delegation of Federal Air Toxics Programs to State and Local Agencies, OMB No. 2060-0264 (ICR # 1643.02), Expiration date July 31, 1996.

Abstract: The rule was developed in accordance with section 112(l)(2) of the Clean Air Act, as amended in 1990, which calls for the U.S. Environmental Protection Agency (EPA) to "publish guidance that would be useful to the States in developing programs. . . allowing for delegation of the Administrator's authorities and responsibilities to implement and enforce emissions standards and prevention requirements." Affected entities include State and local agencies choosing to participate in this voluntary program. No industries are included among respondents. The approval process consists of selecting one or any combination of three options that allow the respondent to adjust or substitute for a Federal rule or program. These three options include (1) approval of a rule which adjusts a section 112 rule, (2) approval of a rule which substitutes for a section 112 rule, and (3) approval of a program which substitutes for some or all of section 112 emission standards. These three approval options vary in the types of changes allowed and in the level of demonstrations required for

approval. Respondents interested in utilizing this program are required to submit an application package to the reviewing agency. The contents of each submission varies with the option(s) chosen. Criteria applicable to all options include a letter from the State Attorney General assuring delegation authority, a copy of State statutes, resource demonstration, implementation schedule, compliance plan, and enforcement procedures. All submissions are voluntary on the part of the State or local agency and, therefore, the information collection requirements apply only to those agencies that voluntarily submit applications for delegation of authority. All application packages are submitted to the Administrator for approval. The information is needed to determine if a State or local agency submitting a request has met the criteria established in the 40 CFR part 63, subpart E rule. Certain information is necessary for the Administrator to determine acceptability of approving State rules or programs in lieu of Federal rules or programs. This collection is a one-time collection of information in the application package for the purpose of determining that the State or local agency has met the criteria specified in the rule. Resubmission is only required in instances where the State rule or program has been revised or if the approval has been withdrawn. The collection of information is authorized under 42 U.S.C. 7401-7671q. Information obtained by EPA is safeguarded according to the Agency policies set forth in Title 40, Chapter 1, part 2, subpart B, Confidentiality of Business Information. See 40 CFR 2; 41 FR 36902, September 1, 1976; amended by 43 FR 39999, September 8, 1978; 43 FR 42251, September 28, 1978; 44 FR 17674, March 23, 1979.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

The EPA would like to solicit comments to:

(i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
