

92-463 as amended), notice is hereby given of a meeting of the Steering Subcommittee of the Labor Advisory Committee for Trade Negotiations and Trade Policy.

Date, time and place: April 10, 1996, 10:00 am-12:00 noon, U.S. Department of Labor, Room S-3215 A/B, 200 Constitution Avenue NW., Washington, D.C. 20210.

Purpose: The meeting will include a review and discussion of current issues which influence U.S. trade policy. Potential U.S. negotiating objectives and bargaining positions in current and anticipated trade negotiations will be discussed. Pursuant to section 9(B) of the Government in the Sunshine Act, 5 U.S.C. 552b(c)(9)(B) it has been determined that the meeting will be concerned with matters the disclosure of which would seriously compromise the Government's negotiating objectives or bargaining positions. Accordingly, the meeting will be closed to the public.

For further information, contact:

Fernand Lavalee, Director, Trade Advisory Group, Phone: (202) 219-4752.

Signed at Washington, D.C. this 21st day of March, 1996.

Joaquin Otero,

Deputy Under Secretary, International Affairs.

BILLING CODE 4510-28-M

Mine Safety and Health Administration

Advisory Committee on the Elimination of Pneumoconiosis Among Coal Mine Workers; Meeting

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice of advisory committee meeting.

SUMMARY: This notice announces the date, time, place, and agenda summary for the second meeting of the Mine Safety and Health Administration's Advisory Committee on the Elimination of Pneumoconiosis Among Coal Mine Workers.

FOR FURTHER INFORMATION CONTACT:

Patricia W. Silvey, Director, Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, room 631, Arlington, Virginia 22203; phone 703-235-1910.

SUPPLEMENTARY INFORMATION: A public meeting of the advisory committee will be held as follows:

(1) April 11, 1996, from 8:00 a.m. to 6:30 p.m.

(2) April 12, 1996, from 8:00 a.m. to 5:00 p.m. The meeting will be held on both days at the DoubleTree Hotel—Pittsburgh (Somerset Room) located at 1000 Penn Avenue, Pittsburgh, Pennsylvania 15222; phone 412-281-3700.

The Secretary of Labor established this advisory committee (60 FR 5947) to develop recommendations for improved standards or other appropriate actions addressing: permissible exposure limits to eliminate black lung disease and silicosis; the means to control respirable coal mine dust levels; improved monitoring of respirable coal dust levels and the role of the miner in that monitoring; and the adequacy of operator sampling programs to determine the actual levels of dust concentrations to which miners are exposed. The Advisory Committee is chartered through September 30, 1996 (60 FR 55284), but must complete its deliberations by August 19, 1996.

The agenda for the second meeting will include discussions on the control of the workplace environment (worker exposure). Specific topics for discussion will include: (1) The current state of dust control technology for underground and surface coal mines and its effectiveness; (2) new developments in control technology and mining systems; (3) the hierarchy of controls and its application in underground and surface coal mines; (4) the design of mine ventilation plans for effective dust control and the means for verifying plan effectiveness; (5) the monitoring of compliance with plan requirements; (6) means of upgrading ventilation plan provisions; (7) the role of the miner, operator, and MSHA; and (8) education and training needs relative to the control of the workplace environment.

The public is invited to attend. The chairperson will provide an hour near the end of each day's meeting to allow interested persons to make comments. Official records of the meeting will be available for public inspection at the above address.

Dated: March 22, 1996.

J. Davitt McAteer,

Assistant Secretary for Mine Safety and Health.

BILLING CODE 4510-43-M

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 CFR Part 35, "Medical Use of Byproduct Material."

2. Current OMB Approval Number 3150-0010.

3. How often the collection is required: Required reports are collected and evaluated on a continuing basis as needed due to a change in programs or as events occur.

4. Who is required or asked to report: Physicians and medical institutions who are applicants for, or holders of, an NRC license authorizing the administration of byproduct material or its radiation to humans for medical use.

5. The number of annual respondents: 1,982 NRC licensees and 4,955 Agreement State licensees.

6. The number of hours needed annually to complete the requirement or request: 376,407 hours for NRC licensees and 942,820 hours for Agreement State licensees.

7. Abstract: 10 CFR Part 35, "Medical Use of Byproduct Material," contains requirements that apply to NRC licensees who are authorized to administer byproduct material or its radiation to humans for medical use. The information in the required reports and records is used by the NRC to ensure that the health and safety of the public is protected, and that the licensee possession and use of byproduct material is in compliance with license and regulatory requirements. The revision is a net increase adjustment in burden resulting from an increase in the number of affected licensees, a reevaluation of the time required to perform individual activities and the number of times those activities are performed, and an addition of burden associated with three sections, two of which are a result of rulemaking, and one which was inadvertently omitted during the last evaluation of burden.
