

that contracts for the sale of electric energy to any private person or agency other than a privately owned public utility engaged in selling electric energy to the general public, shall contain a provision forbidding such private purchaser to resell any such electric energy so purchased to any private utility or agency engaged in the sale of electric energy to the general public, and requiring the immediate canceling of such contract of sale in the event of violation of such provision.

This provision requires that contracts for the sale of power by the Administrator to private entities or agencies thereof, other than investor-owned utilities, contain a provision that prohibits the resale of that power to investor owned utilities or other private entities or their agents engaged in the sale of electricity to the general public. Consistent with the removal of this requirement in P.L. 104-46, contracts for the sale of excess federal power will not contain any provision prohibiting the resale of such power to investor-owned utilities or other private entities or their agents.

Kalispel Tribe Resident Fish Project

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of Floodplain and Wetlands Involvement.

SUMMARY: This notice announces BPA's proposal to construct a warm water bass hatchery and create two bass nurseries on the "Flying Goose Ranch" in northeastern Washington State. The action is being undertaken to mitigate partially for salmon and steelhead losses incurred as a result of the construction and operation of Chief Joseph and Grand Coulee dams. The action proposed within the floodplain of the Pend Oreille River is to construct, operate, and maintain water control structures to create two bass nursery sloughs adjacent to the Pend Oreille River in Pend Oreille County in northeastern Washington. In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements (10 CFR Part 1022), BPA will prepare a floodplain and wetlands assessment and will perform this proposed action in a

manner so as to avoid or minimize potential harm to or within the affected floodplain and wetlands. The assessment will be included in the environmental assessment being prepared for the proposed project in accordance with the requirements of the National Environmental Policy Act. A floodplain statement of findings will be included in any finding of no significant impact that may be issued following the completion of the environmental assessment.

DATES: Comments are due to the address below no later than April 15, 1996.
