DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[WO-330-1020-00-24 1A]

Extension of Currently Approved Information Collection, OMB Approval Number 1004-0020

AGENCY: Bureau of Land Management, Interior.
ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the

Bureau of Land Management (BLM) is announcing its intention to request extension of approval to collect information from individuals who seek to graze livestock on unfenced, intermingled public and private land. BLM uses the information to issue exchange-of-use grazing agreements to ensure orderly administration of the range, including fair and equitable sharing of the operation and maintenance of range improvements. **DATES:** Comments on the proposed information collection must be received by June 3, 1996, to be considered. **ADDRESSES:** Comments may be mailed to: Regulatory Management Team (420), Bureau of Land Management, 1849 C Street NW., Room 401 LS, Washington, DC 20240.

Comments may be sent via Internet to: !WO140@attmail.com. Please include "Attn: 1004-0020" and your name and return address in your Internet message.

Comments may be hand delivered to the Bureau of Land Management Administrative Record, Room 401, 1620 L Street, NW., Washington, DC.

Comments will be available for public review at the L Street address during regular business hours (8:45 a.m. to 5:15 p.m., Monday through Friday).

FOR FURTHER INFORMATION CONTACT: George Ramey, Jr., (202) 452-7747.

SUPPLEMENTARY INFORMATION: In accordance with 5 CFR 1320.12(a), BLM is required to provide 60-day notice in the Federal Register concerning a collection of information contained in published current rules to solicit comments on (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the agency's estimate of the burden of the collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

The Taylor Grazing Act (TGA) of 1934 (43 U.S.C. 315 a-r), the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1739, 1740) and the Public Rangelands Improvement Act of 1978 (43 U.S.C. 1901) provide the authority for BLM to administer the livestock grazing program consistent with land-use plans, multiple-use objectives, sustained yield, environmental values, economic considerations, and other factors. Authorizing livestock use on the public lands is an important and integral part of program administration. Intermingled land patterns sometimes complicate this administration.

BLM's regulations at 43 CFR 4130.6-1 provide for an exchange-of-use grazing agreement to be issued to an applicant (an individual or farm owner) who owns or controls lands that are unfenced and intermingled with public lands in the same allotment. Use under such an agreement must be in harmony with the management objectives for the allotment and must be compatible with existing livestock operations. Initiation of an exchange-of-use agreement is voluntary on the part of the applicant. The implementing regulations were adopted in 1980 (45 FR 47105) and last amended in 1995 (60 FR 9894, February 22, 1995).

BLM uses the Exchange-of-Use Grazing Agreement (Form 4130-4) to

enable individuals to apply for exchange-of-use agreements. BLM considers the information provided on Form 4130-4 before issuing an exchange-of-use grazing permit or lease to graze livestock on the public lands, including other private or leased lands and the additional grazing capabilities. The information provided by the applicant includes identification of the intermingled private lands and estimated grazing capacity of the lands, the name of the BLM allotment and administrating District, the period of time the agreement is to be in effect, and the total number of livestock and animal unit months to be recognized on the allotment.

The information requested on Form 4130-4 is only available from the individual or farm owner. The applicant's ownership papers, which are readily available to the applicant, but not to BLM, provide the specific information necessary to approve the agreement. This information ensures the orderly administration of the range, including fair and equitable sharing of the operation and maintenance of range improvements. Without exchange-of-use agreements, permittees would be required to fence their private lands or limit grazing to the number of livestock allowed only on public land in order to avoid unauthorized use violations. BLM would have to spend additional time supervising use of the range at an increased cost to taxpayers.

The information collection is strictly voluntary to receive a benefit. The application is completed once during a permittee's period of ownership. Based on its experience managing the activities described above, BLM estimates that the public reporting burden for the information collection is 20 minutes per response. The number of responses is estimated to be 600 per year. The estimated total annual burden on new respondents is 200 hours.

Any interested member of the public may request and obtain, without charge, a copy of Form 4130-4 by contacting the person identified under **FOR FURTHER INFORMATION CONTACT**. All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will also become a matter of public record.

Dated: March 27, 1996.

Annetta L. Cheek,

Chief, Regulatory Management Team.
