#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Annual Survey of Communication Services (ASCS) provides detailed estimates of revenue and expenses for the telephone, radio and television broadcasting, cable and

pay television, and other communication service industries. The Bureau of Economic Analysis (BEA), the primary Federal user, uses the information in developing the national income and product accounts, and compiling benchmark and annual input-output tables, and Gross Domestic Product (GDP) by industry. The Federal Communication Commission (FCC) uses these data as a means for assessing FCC policy. The Bureau of Labor Statistics (BLS) uses these data as input to its Producer Price Indices. Private industry uses the data in planning and as a marketing analysis tool. Data are collected from all of the largest firms and from a sample of small- and medium-sized businesses, selected using a stratified random sampling procedure. The ASCS sample is reselected periodically, generally at 5-year intervals. The largest firms continue to be canvassed when the sample is re-drawn, while nearly all of the small- and medium-sized firms from the old sample are replaced. The next such revision, utilizing results from the 1992 economic census, will be effective with the 1996 survey year.

##### II. Method of Collection

We collect this information by mail.

## Foreign-Trade Zones Board

[Docket 25-96]

### Foreign-Trade Zone 14—Little Rock, Arkansas; Application for Subzone; Mid States Pipe Fabricating, Inc. (Steel Pipe); El Dorado, AR

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Little Rock Port Authority on behalf of the Industrial Development Commission of the State of Arkansas, grantee of FTZ 14, requesting special-purpose subzone status for the steel pipe fabrication facilities of Mid States Pipe Fabricating, Inc. (Mid States), located in El Dorado, Arkansas, some 110 miles south of Little Rock. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on March 25, 1996.

This application replaces and closes the file on an earlier application filed in 1993 and still pending involving a Mid States plant in Harlingen, Texas (FTZ Doc. 58-93, filed 11/24/93, 58 FR 63911, 12/3/93). Mid States closed its Harlingen plant in 1995 and relocated the operations to the El Dorado, Arkansas, plant that is the subject of this application.

The Mid States El Dorado facilities consist of two sites within the City of El Dorado, Arkansas. The main facility (70,000 sq. ft. on 14 acres) is located at 1130 East Main Street. The second facility is located at 205 Hurley Road (33,000 sq. ft. on 29 acres). The facilities (100 employees) are used to fabricate steel and steel alloy pipe (1/2" to 60" outer diameter). The pipe is used by the oil refining, chemical processing, paper production, power generation, and motor vehicle manufacturing industries.
