

proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

The Color-of-Title Act of December 22, 1928, as amended (43 U.S.C. 1068, 1068a, 1068b), provides for the issuance of a land patent (deed) to eligible individuals, groups, or corporations who believe they have a valid claim to public lands under color-of-title. The information collected on Color-of-Title Application Form 2540-1, is required by Departmental regulations at 43 CFR 2541.2 (35 FR 9592, June 13, 1970), and is used by the agency to identify information concerning improvements, cultivation, title ownership and related matters.

Any individual seeking to acquire a title to public land under the color-of-title authority must make application and provide information essential to compliance with law, regulations, and procedures. As required by the Color-of-Title Act and 43 CFR 2541.2(b) and (c), information provided on Form 2540-1 is used to certify the applicant's claim for land property title rights from the Federal government. Without this information, BLM cannot finalize the claim.

Form 2540-1 may be submitted in person or by mail to the proper BLM office. The following specific items of information are requested on Color of Title Application Form 2540-1, pursuant to 43 CFR 2541.2(b) and (c): (1) the name of applicant; (2) applicant's address; (3) applicant's phone number; (4) the legal description of the lands claimed; (5) type of claim (class 1 or class 2); (6) record title holder declaration and explanation; (7) description and copy of written instrument asserting ownership (deed, will, court order, etc.); (8) date applicant learned about title problem; (9) source of information from which applicant learned of title problem; (10) title search information; (11) purchase price of property, value of improvements, revenue from forest products; (12) cultivation information; (13) property improvement information; (14) mineral estate information; and (15) filing fee (\$10), applicant's signature and date of application. Response is mandatory if the color-of-title claimant wishes to obtain the benefits of the statute and

gain clear title to his claimed property. Failure to provide the necessary information results in the rejection of the color-of-title application.

If BLM did not collect the information on Color of Title Application Form 2540-1, the agency would be unable to carry out the mandate of the Color-of-Title Act and the responsibilities for implementing 43 CFR 2540 and 2541. Form 2450-1 requires only the minimal information necessary to determine claim validity.

Based on its experience processing Color-of-Title applications, BLM estimates the public reporting burden for completing Color of Title Application Form 2540-1 is 15 minutes. BLM estimates that approximately 37 Color-of-Title applications are filed annually for a total annual burden of 9 hours.

Any interested member of the public may request and obtain, without charge, a copy of Color of Title Application Form 2540-1 by contacting any BLM Office or the person identified under **FOR FURTHER INFORMATION CONTACT**.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will also become part of the public record.

## INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-379]

### Certain Starter Kill Vehicle Security Systems; Notice of Commission Determination Not To Review an Initial Determination Terminating the Investigation and Notice of Schedule for Filing Response To Petition for Review of Order Denying Motion for Sanctions

**AGENCY:** U.S. International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the U.S. International Trade Commission has determined not to review the presiding administrative law judge's (ALJ's) initial determination (ID) (Order No. 13) in the above-captioned investigation terminating the investigation based on withdrawal of the complaint. Notice is also given of the schedule for complainant to file a response to respondents' petition for review of the ALJ's order denying respondents' motion for sanctions (Order No. 12).

**FOR FURTHER INFORMATION CONTACT:** Andrea C. Casson, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202-205-3105.

**SUPPLEMENTARY INFORMATION:** On November 20, 1995, Code Alarm, Inc. of Madison Heights, Wisconsin filed a complaint with the Commission alleging violations of section 337 of the Tariff

Act of 1930 in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain starter kill vehicle security systems by reason of alleged contributory and induced infringement of certain claims of a U.S. patent owned by complainant.

The Commission instituted an investigation of the complaint, and published a notice of investigation in the Federal Register on Nov. 28, 1995, 60 FR 58638. The notice named Directed Electronics, Inc. of Vista, California, and Nutek Company of Taipei, Taiwan as respondents.

A preliminary conference was held on Feb. 2, 1996, at which the deadline for completion of discovery was set as May 31, 1996, and the date for commencement of the hearing was set as June 24. At present, discovery is in an early phase and no depositions have been taken.

On Feb. 20, 1996, respondents filed a motion for summary determination of non-infringement. On Feb. 26, 1996, complainant filed a motion to terminate the investigation, pursuant to Commission rule 210.21, 19 CFR 210.21, based upon withdrawal of the complaint. Respondents opposed the motion, but the Commission investigative attorney (IA) filed a response in support of complainant's motion.

On Feb. 29, 1996, respondents filed a motion for sanctions against complainant. Complainant and the IA opposed the motion.

On March 5, 1996, the ALJ issued an ID granting complainant's motion to terminate the investigation. Order No. 13. Concurrently, the ALJ issued an order denying respondents' motion for sanctions. Order No. 12. On March 15, 1996, respondents filed a petition for review of the orders. The IA filed a response in opposition to both aspects of the petition. Complainant filed a response in opposition to the petition for review of the ID, but did not respond to the petition for review of the order denying sanctions.

Commission rule 210.25(d) provides, in pertinent part, that if an ALJ's order concerning sanctions is issued concurrently with an ID terminating the investigation, the periods for filing a petition for review of such order and for responding to such petition will be specified in the Commission notice stating the Commission's decision on whether to review the ID. 19 CFR 210.25(d). Since respondents have already filed a petition for review of the ALJ's order denying sanctions, and the IA has already filed a response to that petition, it is unnecessary to set a date
