Notice of Removal From the Site Decommissioning Management Plan for the Cleveland Works Facility of the Aluminum Company of America, Inc. (ALCOA)

This notice is to inform the public that the Nuclear Regulatory Commission is removing the Cleveland Works Facility of the Aluminum Company of America (ALCOA) in Cleveland, Ohio, from the Site Decommissioning Management Plan (SDMP). ALCOA used thorium at this site from the early 1900s and under license No. C-5023 from the Atomic Energy Commission (AEC) from 1954 until 1961. Surveys performed in 1989 and 1990 showed thorium contamination at several locations on the facility. Fugitive depleted uranium from Chemetron, Inc., an adjoining facility to the east, was also found on the site. ALCOA began site remediation/clean-up in 1991 and completed remediation/clean-up in 1995. Based on: (1) Remedial actions taken by ALCOA and Chemetron, (2) the NRC staff's review of ALCOA and Chemetron termination surveys, (3) ALCOA information on previous thorium waste disposal practices, and (4) the results of the NRC's confirmatory surveys, the NRC concludes that remediation/clean-up activities are complete and the site is suitable for unrestricted use. Removal from the SDMP will be reopened only if additional contamination, or noncompliance with remediation commitments is found indicating a significant threat to public health and safety.

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available
From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549

Extension: Rule 17a-11, SEC File No. 270-94, OMB Control No. 3235-0085

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), the Securities and Exchange Commission ("Commission") is publishing the following summaries of collections for public comment.

Rule 17a-11 requires broker-dealers to give notice when certain specified events occur. Specifically, the rule requires broker-dealers to send notice promptly (but within 24 hours) after the broker-dealer's aggregate indebtedness is in excess of 1,200 percent of its net capital, its net capital is less than 5 percent of aggregate debt items or its total net capital is less than 120 percent of the broker-dealer's required minimum net capital. In addition, broker-dealers are required to give notice that if they fail to make and keep current books and records required by Rule 17a-3 or if they discover any material inadequacy as defined in Rule 17a-5(g).

The notice required by the rule alerts the Commission and self-regulatory organizations ("SROs"), which have oversight responsibility over broker-dealers, to those firms having financial or operational problems.

Because broker-dealers are required to file pursuant to Rule 17a-11 only when certain specified events occur, it is difficult to develop a meaningful figure for the cost of compliance with Rule 17a-11. It is anticipated that approximately 650 broker-dealers will each spend 1 hour per year complying with Rule 17a-11. The total cost is estimated to be approximately 650 hours. With respect to those broker-dealers that must give notice under Rule 17a-11, the cost is approximately \$10

per response for a total annual expense for all broker-dealers of \$6,500.

Written comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.
