

for respondents to file a petition or for the IA to respond. However, pursuant to rule 210.25(d), complainant will have until April 15, 1996, to file a response to respondents' petition for review of Order No. 12.

This action is taken under the authority of section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, and Commission rules 210.42 and 210.25, 19 CFR 210.42 and 210.25.

Copies of the ALJ's ID and his order denying sanctions, and all other nonconfidential documents filed in connection with this investigation, are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436 (telephone 202-205-2000). Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202-205-1810.

By order of the Commission.

Issued: April 9, 1996.

Donna R. Koehnke,

Secretary.

## DEPARTMENT OF JUSTICE

### Antitrust Division

#### Notice Pursuant to the National Cooperative Research and Production Act of 1993; Michigan Materials and Processing Institute

Notice is hereby given that, on August 1, 1995, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), the Michigan Materials and Processing Institute ("MMPI") filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its organization. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. MMPI has reorganized from a membership-based non-profit corporation to a stock-based non-profit organization. Industrial shareholders are required to fund minimum levels of research, based on their sales of polymer composite materials or the base materials used in structural polymer composite materials. Aside from the funding mechanism, the structure of MMPI is essentially

unchanged, with industrial shareholders receiving preferential rights to negotiate for rights to intellectual property derived from MMPI's research program.

No other changes have been made in either the membership or the planned activity of the group research project. Membership in this group research project remains open, and MMPI intends to file additional written notification disclosing all changes in membership.

On August 7, 1990, MMPI filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the Federal Register pursuant to Section 6(b) of the Act on September 6, 1990, 55 Fed. Reg. 36710. The last notification was filed with the Department on July 24, 1995. A notice was published in the Federal Register pursuant to Section 6(b) of the Act of March 12, 1996, 61 Fed. Reg. 10012-01.

Constance K. Robinson,

Director of Operations, Antitrust Division.

## DEPARTMENT OF LABOR

### Employment and Training Administration

#### Notice

**SUMMARY:** The Department of Labor, Employment and Training Administration (DOL/ETA) is moving to the next phase of development of O\*NET, the Occupational Information Network. Accordingly DOL/ETA is: 1. soliciting applications from State governments for O\*NET facilitation grants; 2. requesting proposals from small business concerns for the provision of technical assistance to facilitate the implementation and integration of the O\*NET Prototype in State employment and training systems, particularly to the States selected to receive facilitation grants; and 3. announcing the qualified release of the developmental prototype of O\*NET for testing and evaluation purposes. These actions are in response to broad public anticipation of the availability of the O\*NET and are designed to encourage significant, entrepreneurial, business and public sector participation in the development of innovative workforce development tools for the marketplace using the O\*NET Database and Prototype.

**BACKGROUND:** O\*NET is a multi-year project to develop an automated replacement for the Dictionary of Occupational Titles (DOT). O\*NET is

replacing the DOT with a relational database that contains comprehensive, skills-based information about worker requirements and characteristics, experience requirements and occupational requirements and characteristics. The O\*NET content model offers a common language and a standardized framework of information for consistent use across all occupational and industrial sectors. O\*NET can identify broadly transferable skills by utilizing a variety of cross-job descriptors that organize job-specific information into broad, empirically-based occupational clusters.

The Employment and Training Administration is nearing completion of the first phase of development of the O\*NET Database and Prototype. The O\*NET Database has been developed on an industry standard, flexible and user-friendly open platform. It is comprised of 11 separate databases of O\*NET content model descriptor information all related by the O\*NET occupational code. Files provide mean ratings for all available content model constructs in .dbf file format. The O\*NET Database is designed for maximum utility to researchers and career information software developers and vendors.

The O\*NET Prototype is a basic application of the O\*NET Database. The prototype incorporates a user interface designed to acquaint users with variables in the database, and facilitate access to O\*NET's data fields. It will allow users to browse the database, learn about occupations, crosswalk O\*NET information to other occupational classification structures, search for and select occupations and variables, match occupations to predefined criteria, and export data in various file formats. The O\*NET Prototype is designed for broad, non-technical employment, training, and general workforce development program usage.

**FOR FURTHER INFORMATION CONTACT:** Ms. Lorraine Saunders and Mr. Willie Harris, U.S. Department of Labor, Division of Acquisition and Assistance, Room No. S-4203, 200 Constitution Avenue NW., Washington, DC 20210. Telephone No. (202) 219-8698 (This is not a toll-free number).

#### SUPPLEMENTARY INFORMATION:

A. Solicitation for State Grant Applications

During April 1996, DOL/ETA will solicit applications for O\*NET Facilitation Grants. State governments are eligible applicants. Four to five grants will be awarded. Grant awards will be made no later than June 30,

1996. The grant awardees will be responsible for: 1. establishing collaborative relationships among workforce development program, system and software providers; 2. integrating the O\*NET Prototype into State and local employment, training and human resource development programs; and 3. implementing O\*NET as the driving engine for the development of career and occupational information applications meeting business and education and training program users' needs.

#### B. Request for Proposals

During April 1996, DOL/ETA will request proposals to facilitate the implementation and integration of the O\*NET Prototype in State employment and training systems. Small business concerns are eligible applicants. One contract will be awarded. Contract award date will be no later than June 30, 1996. The contract awardee will be responsible for: linking current O\*NET research and development work to workforce development program, systems and software development; providing technical assistance as necessary to refine and enhance the current O\*NET Prototype as a flexible, user-friendly platform for applications development; and developing and providing technical assistance and staff support to a user group of employment, training, and human resource development systems involved in O\*NET implementation and integration.

#### C. Qualified Release of O\*NET

During the Fall of 1996, DOL/ETA is planning a qualified release of a developmental version of the O\*NET Database and Prototype, as completed at that point in time, to users, developers and vendors for purposes of evaluation, testing, building and enhancement. DOL/ETA is planning to license users, developers and vendors for participation in a program supporting continued O\*NET development. Participants may choose from a menu of options likely to include: review, comment, and critique of the content and functionality of the Database and Prototype; validation of Database content; building the Database through contribution of occupational information; and/or further development and enhancement of the Prototype through application development. Participants are advised that the O\*NET Database and Prototype may undergo substantial changes in design, content and format after the date of its release, and DOL/ETA makes no representations of similarity or compatibility with later versions. DOL/

ETA is in the process of determining licensing issues, participation options and fees that may be charged for participation. Further details will be made available as plans for this program develop.

Dated: April 11, 1996.

Raymond J. Uhalde,  
Deputy Assistant Secretary, Employment and Training Administration.

### NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 96-042]

#### NASA Advisory Council (NAC), Space Science Advisory Committee (SScAC), Sun-Earth Connection Advisory Subcommittee; Meeting

**AGENCY:** National Aeronautics and Space Administration.

**ACTION:** Notice of meeting.

**SUMMARY:** In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Aeronautics and Space Administration announces a meeting of the NASA Advisory Council, Space Science Advisory Committee, Sun-Earth Connection Advisory Subcommittee. **DATES:** Wednesday, May 1, 1996, 8:30 a.m. to 5:00 p.m.; Thursday, May 2, 1996, 8:30 a.m. to 5:00 p.m.; and Friday, May 3, 1996, 8:30 a.m. to 5:00 p.m.

**ADDRESS:** National Aeronautics and Space Administration, Program Review Center Ninth Floor, Room 9H40 (May 1), MIC Room 7H46 West (May 2-3), 300 E Street, SW, Washington, DC 20546.

**FOR FURTHER INFORMATION CONTACT:** George L. Withbroe, Code SA, National Aeronautics and Space Administration, Washington, DC 20546, (202) 358-2150.

**SUPPLEMENTARY INFORMATION:** The meeting will be open to the public up to the capacity of the room. The agenda for the meeting is as follows:

- Sun-Earth Connection Program Overview: Budget, Ongoing Program, Future Activities
- Program Reports for Magnetospheric Physics; Heliospheric Physics; Solar Physics; and Ionospheric-Thermospheric-Mesospheric Physics
- Strategic Planning Activities and Development of Sun-Earth-Heliosphere Roadmap
- Discussion and writing Groups.

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

Dated: April 5, 1996.

Leslie M. Nolan,  
Advisory Committee Management Officer,  
National Aeronautics and Space Administration.

### NATIONAL SCIENCE FOUNDATION

#### Collection of Information; Submission for OMB Review; Comments Requested by April 26, 1996

Title of Proposed Collection, "Undergraduate Faculty Enhancement Program Survey"

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, on Tuesday, April 11, 1995, Federal Register Vol. 60, No. 69 18427, the National Science Foundation (NSF) published, for public comment, a proposed generic clearance for collection of information, "Generic Clearance—NSF Surveys To Measure Customer Satisfaction." *No public comments were received.* A proposed collection to be considered under that generic clearance is being forwarded to the Office of Management and Budget for consideration. Comments on the proposed data collection plans and instruments may be directed to OMB at the following address: Office of Management and Budget, IRA, ATTN.: Jonathan Winer, New Executive Office Building, Room 3208, Washington, DC 20503.

Written comments should be received by April 26, 1996.

#### Abstract

This survey is to provide an accounting of the faculty development workshops run by the Undergraduate Faculty Enhancement (UFE) Projects supported by the National Science Foundation. This is an annual survey of each workshop. It includes questions about the individual involved in each workshop, the number of participants, and the nature of the individuals who benefited from the workshops. The data collection addresses questions asked internally about the UFE program by NSF program officers in their program planning and in conjunction with the development of the EHR Impact Database. It also addresses questions asked by the Congress and other interested parties. The UFE program will use these data to establish the influence on faculty of the UFE program. It will also show other sources of income and support received by the projects for faculty enhancement.
