FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73
[FCC 96-113]

Mass Media: AM Expanded Band Allotment Plan

AGENCY: Federal Communications Commission.

ACTION: Final rule; comments in response to reconsideration.

SUMMARY: In Comments in Response to Reconsideration of Implementation of the AM Expanded Band and Allotment Plan, FCC 96-113, the Federal Communications Commission denied requests raised in response to Reconsideration of Implementation of the AM Expanded Band Allotment Plan (Reconsideration Order) and closed to further changes the official AM database (the June 30, 1993-A AM Engineering Database) which is used for expanded band allotments. The Reconsideration Order had rescinded the initial AM Expanded Band Allotment Plan and provided a period for comments to correct the AM database and comments on the procedures which would be used to generate a new plan based on recalculated ranking factors.

EFFECTIVE DATE: April 18, 1996.
FOR FURTHER INFORMATION CONTACT: Jim Burtle, Audio Services Division, Mass Media Bureau, (202) 418-2670.

SUPPLEMENTARY INFORMATION: The full text of this Commission decision Comments in Response to Reconsideration of Implementation of the AM Expanded Band and Allotment Plan, FCC 96-113, adopted March 15, 1996, and released March 22, 1996 (Comments Order), is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M St., N.W. Washington D.C. (See MM Docket 87-267). The complete text of this decision may also be purchased from the Commission's copy contractor, Downtown Copy Center, 1990 M St., N.W., Suite 640, Washington, D.C. 30036.

By the Reconsideration Order, 60 FR 48426 (September 19, 1995), the Commission rescinded the interference improvement factor rankings and the resulting Allotment Plan for AM stations seeking to migrate to the AM expanded band. The Allotment Plan identified those AM stations that were eligible to apply for authorizations for specific allotments for AM expanded band frequencies (1605 kHz-1705 kHz). The Commission provided the public a thirty-day period to submit comments on the procedures and technical standards which were set forth in the Reconsideration Order and which would be used to generate corrected improvement factors and a new allotment plan. Comments were received from four licensees. The FCC rejected the requests raised in the comments.

Concurrent with the release of the Comments Order, the Commission's Mass Media Bureau announced revised expanded AM broadcast band improvement factors and a revised Allotment Plan. See Public Notice DA 96-408, released March 22, 1996. After the Allotment Plan becomes a final Commission action, the FCC will issue a further public notice announcing that each licensee that was allotted a frequency, and thus selected for migration to the expanded band, will be afforded a sixty (60) day period in which to file an application for construction permit authority on the allotted channel. Such licensees will also be notified individually by letter. Applications will be subject to petitions to deny but not to competing applications. Applications are also subject to the provisions of three international agreements (Region 2, Canadian, and Mexican). See Section 73.28 (a) of the Commission's Rules. Application procedures will be set forth in the further public notice.

Final Regulatory Flexibility Analysis

This action is authorized under Sections 4 (i) and 303 (r) of the Communications Act of 1934, as amended, and 303 (r), and Section 553 (b) (3) (A) of the Administrative Procedures Act.

Ordering Clause

Accordingly, *it is ordered* that the requests raised in the comments filed in this proceeding are denied, as set forth above. *It is further ordered* that the June 30, 1993-A database is now closed to further changes and the June 30, 1993-A AM Engineering Database which was placed in the public record and associated with MM Docket 87-267, the Expanded Band rulemaking proceeding, will be used as the official database for further use in the expanded band proceeding.
