SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions
- III. Request for Comments

I. Background

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Pub. L. 93-275) and the Department of Energy Organization Act (Pub. L. 95-91), the Energy Information Administration (EIA) is obliged to carry out a central, comprehensive, and unified energy data and information program. As part of this program, EIA collects, evaluates, assembles, analyzes, and disseminates data and information related to energy resource reserves, production, demand, and technology, and related economic and statistical information relevant to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

The Energy Information Administration, as part of its continuing effort to reduce paperwork and respondent burden (required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13)), conducts a presurvey consultation program to provide the general public and other Federal agencies with an opportunity to comment on proposed and/or continuing reporting forms. This program helps to ensure that requested data can be provided in the desired format, reporting burden is minimized, reporting forms are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

The Petroleum Supply Reporting System collects data essential for determining the supply and demand of crude oil, petroleum products and natural gas liquids. These data are published by the Energy Information Administration in the Weekly Petroleum Status Report, Winter Fuels Report, Petroleum Supply Monthly and the Petroleum Supply Annual. Survey respondents include producers of oxygenates, operators of petroleum refining facilities, motor gasoline blending plants, bulk terminals, crude oil and petroleum product pipelines, natural gas plant facilities, tanker and barge operators and oil importers.

II. Current Actions

The EIA requests a one year extension to the Forms EIA-800-804, 807, 810-814, 816, 817, 819M, 820 and 825 of the Petroleum Supply Reporting System to

collect data in 1997. In response to budget reductions, EIA is making immediate modifications to its current business practices. As a result, the EIA eliminated the survey, Form EIA-819A, "Annual Oxygenate Report" as of January 1, 1996; is using the Form EIA-820, "Annual Refinery Report" to collect data on a biennial basis beginning in 1997 (the form is not being used to collect data in 1996); and initiated a two-year development schedule for the implementation of revised survey forms in 1998.

III. Request for Comments

Prospective respondents and other interested parties should comment on the actions discussed in item II. The following guidelines are provided to assist in the preparation of responses. (If the notice covers more than one form, please indicate to which form(s) your comments apply.)

EIA is interested in receiving comments from persons regarding: A. Practical utility is the actual usefulness of information to or for an agency, taking into account its accuracy, adequacy, reliability, timeliness, and the agency's ability to process the information it collects.

B. What enhancements can EIA make to the quality, utility, and clarity of the information to be collected?

As a Potential Respondent

A. Are the instructions and definitions clear and sufficient? If not, which instructions require clarification?

B. Can data be submitted in accordance with the due date specified in the instructions?

C. Public reporting burden for this collection is estimated to average per submission: EIA-800, 1 hour 10 minutes; EIA-801, 40 minutes; EIA-802, 40 minutes; EIA-803, 25 minutes; EIA-804, 1 hour 10 minutes; EIA-807, 50 minutes; EIA-810, 3 hours 10 minutes; EIA-811, 1 hour 40 minutes; EIA-812, 2 hours; EIA-813, 1 hour 30 minutes; EIA-814, 1 hour 5 minutes; EIA-816, 40 minutes; EIA-817, 1 hour 30 minutes; EIA-819M, 30 minutes; EIA-820, 2 hours; and EIA-825, 30 minutes.
