

containment of regulated articles. In addition to the emergency actions taken to control Karnal bunt in Arizona, New Mexico, and Texas, emergency action has been taken by the California Department of Food and Agriculture (CDFA) and the Animal and Plant Health Inspection Service (APHIS). APHIS and CDFA have instituted emergency quarantines on the infected premises and are regulating the movement of seed, farm equipment, and soil associated with the infected wheat.

This infection of Karnal bunt represents a threat to United States wheat crops. It constitutes a real danger to the national economy and seriously burdens interstate and foreign commerce. Therefore, the Department has determined that an extraordinary emergency exists because of the existence of Karnal bunt in California, as well as in Arizona, New Mexico, and Texas as previously declared.

The Department has reviewed the measures being taken by the State of California to survey, regulate, and control Karnal bunt and has consulted with the Governor of California. Based on such review and consultation, the Department has determined that measures being taken by the State of California are inadequate because California is unable to take all of the measures required to obtain and maintain the cooperation of the owners of wheat crops necessary to effectively and efficiently control Karnal bunt.

Therefore, in accordance with 7 U.S.C. 150dd, this declaration of extraordinary emergency authorizes the Secretary to: (1) seize, quarantine, treat, apply other remedial measures to, destroy, or otherwise dispose of, in such manner as the Secretary deems appropriate, any product or article of any character whatsoever, or means of conveyance that the Secretary has reason to believe is infected by or contains Karnal bunt; (2) quarantine, treat, or apply other remedial measures to, in such manner as the Secretary deems appropriate, any premises, including articles on such premises, that the Secretary has reason to believe are infected by Karnal bunt. The Governor of California has been informed of these facts.

EFFECTIVE DATE: This declaration of extraordinary emergency shall become effective April 12, 1996.

Dan Glickman,

Secretary of Agriculture.
