

in the application on file with the Commission and open to public inspection.

CNG states that LILCO, a local distribution company, has requested, and CNG has agreed to add, on a secondary basis, a new storage injection receipt point at an existing interconnection between CNG and Iroquois Pipeline Company, known as Canajoharie, to the existing GSS Service Agreement between CNG and LILCO dated January 1, 1996.

CNG states that the utilization of the Canajoharie receipt point as a storage injection receipt point will only be used as operating conditions permit, and that since the interconnect already exists, no new facilities are required.

CNG states that the addition of this secondary receipt point will not disadvantage any existing CNG customer and does not change LILCO's GSS Storage injection quantities.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 29, 1996, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

unnecessary for CNG to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. RP94-367-007 and RP95-31-014]

National Fuel Gas Supply Corporation; Notice of Tariff Filing

April 17, 1996.

Take notice that on April 12, 1996, National Fuel Gas Supply Corporation (National) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, the following tariff sheets proposed to be effective April 1, 1996:

2nd Sub. Sixth Revised Sheet No. 2

Fourth Revised Sheet No. 17

Second Revised Sheet No. 17A

Third Revised Sheet No. 159

3rd Sub. Fifth Revised Sheet Nos. 236 and 237

National states that on March 22, 1996, National submitted its compliance filing in the above-captioned proceedings. On April 1, 1996 and April 5, 1996, National submitted corrections to the Compliance Filing. The above-listed sheets correct pagination and typographical errors in National's previous filings.

National further states that copies of this filing were served upon the company's jurisdictional customers and upon the Regulatory Commissions of the States of New York, Ohio, Pennsylvania, Delaware, Massachusetts, and New Jersey.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C., 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TM96-13-29-000]

Transcontinental Gas Pipe Line Corporation; Notice of Proposed Changes in FERC Gas Tariff

April 17, 1996.

Take notice that on April 12, 1996 Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing certain revised tariff sheets to its FERC Gas Tariff, Third Revised Volume No. 1 which tariff sheets are enumerated in Appendix A attached to the filing.

Transco states that the purpose of the instant filing is to track rate changes attributable to a) storage service purchased from CNG Transmission Corporation (CNG) under its Rate Schedule GSS the costs of which are included in the rates and charges payable under Transco's Rate Schedules LSS and GSS and b) transportation service purchased from Texas Gas Transmission Corporation (Texas Gas) under its rate schedule FT the costs of which are included in the rates and charges payable under Transco's Rate Schedule FT-NT. This tracking filing is being made pursuant to Section 4 of Transco's Rate Schedule LSS, Section 3 of Transco's Rate Schedule GSS and Section 4 of Transco's Rate Schedule FT-NT.

Transco states that included in Appendices B and C attached to the filing are explanations of the rate changes and details regarding the computation of the revised Rate Schedule LSS, GSS and FT-NT rates.

Transco states that copies of the filing are being mailed to each of its LSS, GSS and FT-NT customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP96-311-000]

Williams Natural Gas Company; Notice of Application To Amend Certificate

April 17, 1996.

Take notice that, on April 11, 1996, Williams Natural Gas Company (Williams), P.O. Box 3288, Tulsa, Oklahoma 74101, filed an abbreviated application, pursuant to section 7 of the Natural Gas Act, to amend the certificate issued on September 24, 1958, in Docket No. G-10956 (20 FPC 390) by expanding the storage area of its Elk City Storage Field, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

The certificate issued in Docket No. G-10956 authorized Williams (formerly: Cities Service Gas Company) to construct and operate the Elk City Storage Field, in Elk, Chautauqua, and Montgomery Counties, Kansas, as an underground gas storage field. Williams now requests the Commission to authorize it to extend the Elk City Storage Field's buffer zone north and west of its current location, by acquiring gas storage rights under approximately 2,740 acres of land in Elk and Montgomery Counties, Kansas. As proposed, the extension would add the following parcels of land to the storage area:

Montgomery County, Kansas

The west half of Section 2 in T31S, R13E.

Elk County, Kansas

All of Section 3 in T31S, R13E.

The east half of Section 4 in T31S, R13E.

The east half of Section 9 in T31S, R13E.

All of Section 10 in T31S, R13E.

The north half of the north half of Section 15 in T31S, R13E.

The south half of the southwest quarter of the northwest quarter of Section 15 in T31S, R13E.

The east half of Section 16 in T31S, R13E.

Williams would acquire the subject acreage by lease, purchase, or through the exercise of eminent domain under the Natural Gas Act. Williams states that the gas wells located on the property to be acquired will be converted into observation wells. Williams also states that it believes the extension will increase the effectiveness of the storage area, enhance the overall efficiency of its storage operations, and reduce the risk of storage gas migrating to producing wells outside the present storage area boundary. Williams further asserts that extending the storage area boundary, as proposed, is both reasonable and required by the present and future public convenience and necessity.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before May 8, 1996, file with the Federal Energy Regulatory Commission, Washington, D.C., 20426, a motion to intervene or protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding, or to participate as a party in any hearing therein, must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application, if no motion to intervene is filed within the same required herein, or if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Williams to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5460-6]

National Environmental Education and Training Foundation, Inc.; Announcement of a New Appointment to the Board of Directors

The National Environmental Education and Training Foundation (NEETF) was created by Public Law 101-619, the National Environmental Education Act of 1990. It is a private 501(c)(3) non-profit organization established to promote and support education and training as necessary

tools to further environmental protection and sustainable, environmentally sound development. NEETF provides the common ground upon which leaders from business and industry, all levels of government, public interest groups, and others can work cooperatively to expand the reach of environmental education and training programs beyond the traditional classroom. The Foundation operates a grant program that promotes innovative environmental education and training programs; it also develops partnerships with government and other organizations to administer projects that promote the development of an environmentally literate public.

The Administrator of the U.S. Environmental Protection Agency, as required by the terms of the Act, announces the appointment of Walter M. Higgins to the NEETF Board of Directors. Walter Higgins is President and Chief Executive Officer of Sierra Pacific Power Company and Sierra Pacific Resources, a diversified utility holding company in Reno, Nevada. Prior to 1993 when he joined Sierra Pacific Resources, Mr. Higgins was the President of the Louisville Gas and Electric Company in Kentucky, and prior to that he was with the Portland General Electric Company (PGE) in Oregon for 14 years. In the mid-1980's he was President of PGE's first non-utility subsidiary, an energy conservation and cogeneration company.

Education: Mr. Higgins graduated with distinction from the U.S. Naval Academy with a degree in Nuclear Science; two years of Navy postgraduate nuclear engineering training; George Washington University graduate business studies; Public Utility Executive Course at the University of Idaho; and Stanford University Graduate School of Business Executive Program.

Organizations: Mr. Higgins has a great deal of experience with a number of organization including the following—Board of Trustees of the Nature Conservancy of Nevada; Board of Directors of the Reno United Way; Edison Electric Institute Board of Directors; Pacific Coast Gas Association Board of Directors; Western Energy and Communication Association Board of Directors and Executive Board of Nevada Area Council Boy Scouts of America.

Mr. Higgins appointment to the NEETF Board of Directors will be for a 4-year term. Great care is taken to assure that each new appointee to the thirteen-member NEETF Board has the highest degree of expertise and commitment, and also brings to the Board diverse
