

in the application on file with the Commission and open to public inspection.

CNG states that LILCO, a local distribution company, has requested, and CNG has agreed to add, on a secondary basis, a new storage injection receipt point at an existing interconnection between CNG and Iroquois Pipeline Company, known as Canajoharie, to the existing GSS Service Agreement between CNG and LILCO dated January 1, 1996.

CNG states that the utilization of the Canajoharie receipt point as a storage injection receipt point will only be used as operating conditions permit, and that since the interconnect already exists, no new facilities are required.

CNG states that the addition of this secondary receipt point will not disadvantage any existing CNG customer and does not change LILCO's GSS Storage injection quantities.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 29, 1996, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

unnecessary for CNG to appear or be represented at the hearing.
