### Centers for Disease Control and Prevention

[Announcement Number 614]

### Surveillance of the Complications of Hemophilia

#### Introduction

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1996 funds to continue a cooperative agreement program to conduct active surveillance for hemophilia A and B (henceforth referred to as hemophilia) and their complications. The international classification of diseases (ICD) code definition of hemophilia A is congenital factor VIII disorder and hemophilia B is congenital factor IX disorder. Applicant's programs must be targeted to individuals with hemophilia who receive their care both within and outside hemophilia treatment centers and comprehensive care centers. Such individuals should include: persons who do not access traditional hemophilia treatment services and may receive inadequate care (and are possibly over-represented by persons who are economically disadvantaged), persons who live in rural areas or inner cities; or, persons who are members of one of four federally recognized minority groups: (1) Black; African-American or Caribbean; (2) Hispanic; Central American, South American, Mexican American, Dominican, Cuban, or Puerto Rican; (3) Asian/Pacific Islander, or (4) American Indian or Alaskan Native.

CDC is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Diabetes and Chronic Disabling Conditions. (For ordering a copy of Healthy People 2000, see the Section Where to Obtain Additional Information.)
