**DATES:** Submit written comments on or before June 24, 1996.

**ADDRESSES:** Direct all written comments to Linda Engelmeier, Acting Departmental Forms Clearance Officer, Department of Commerce, Room 5327, 14th and Constitution Avenue, NW., Washington, DC 20230.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Bonnie Tarsia, Bureau of the Census, FOB 3, Room 3340, Washington, DC 20233-8400, (301) 457-3806.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Census Bureau is requesting clearance for the collection of data concerning the School Enrollment Supplement to be conducted in conjunction with the October 1996 CPS, Title 13, United States Code, Section 182; and Title 29 United States Code, Sections 1-9, authorize the collection of CPS information. The Bureau of the Census and the Bureau of Labor Statistics (BLS) sponsor the basic annual school enrollment questions, which

have been collected annually in the CPS for over 25 years. The National Center for Education Statistics (NCES) sponsors the inclusion of the additional questions on summer school enrollment.

This survey provides information on public/private elementary and secondary school enrollment, and characteristics of private school students and their families, which is used for tracking historical trends and for policy planning and support. This year we will also ask questions about summer school enrollment and other organized activities in which the child participated during the previous summer. This survey is the only source of national data on the age distribution and family characteristics of college students, and the only source of demographic data on preprimary school enrollment. As part of the Federal Government's efforts to collect data and provide timely information to local governments for policymaking decisions, the survey provides national trends in employment and progress in school.

## II. Method of Collection

The school enrollment information will be collected by both personal visit and telephone interviews in conjunction with the regular October CPS interviewing. All interviews are conducted using computer-assisted interviewing.

## III. Data

*OMB Number:* 0607-0464.

*Form Number:* There are no forms. We conduct all interviewing on computers.

*Type of Review:* Regular.

*Affected Public:* Individuals or households.

*Estimated Number of Respondents:* 48,000 per month.

*Estimated Time Per Response:* 8 minutes.

*Estimated Total Annual Burden Hours:* 6,400.

*Estimated Total Annual Cost:* \$360,000.

## IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information

on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: April 18, 1996.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Abstract**

The Census Bureau is the preeminent collector and provider of timely, relevant, and quality data about the people and economy of the United States. Economic data are the Census Bureau's primary program commitment during nondecennial census years. The economic census, conducted under authority of Title 13 U.S.C., is the primary source of facts about the structure and functioning of the Nation's economy and features unique industry and geographic detail. Economic census statistics serve as part of the framework for the national accounts and provide essential

information for government, business and the general public. The 1997 Economic Census will cover virtually every sector of the U.S. economy.

The 1997 Vehicle Inventory and Use Survey, a component of the Economic Census, will produce basic statistics on the physical and operational characteristics of the nation's trucks, automobiles, and buses. It also will yield a variety of subject statistics, including vehicles by annual miles, major use, fuel type, miles per gallon, and products carried. The Census Bureau will publish truck estimates at the state and national level, and automobile and bus estimates at the national level.

Primary strategies for reducing burden in the Vehicle Inventory and Use Survey data collections include employing a stratified random sample to use the least number of sampling units required to produce reliable statistics, separate vehicle-type specific questionnaires, check boxes with ranges in lieu of specific responses, accepting estimates, and utilizing a short form for light trucks with homogeneous characteristics.

## II. Method of Collection

The Vehicle Inventory and Use Survey will survey a sample of private and commercial trucks, automobiles, and buses registered in the 50 States and the District of Columbia. Government vehicles will not be sampled. Trucks will be divided into 5 different groups: "pick-up," "van," "single-unit light," "single-unit heavy," and "truck tractors." Automobiles will be divided into 2 different groups: "station wagon" and "other automobiles." Buses will be divided into 4 different groups: "buses," "transit buses," "school buses," and "large van-type buses." All vehicles will be selected at random with equal probabilities of selection within a group. For each selected vehicle, a questionnaire will be mailed to the owner identified in the vehicle registration records. The owner will be asked to respond only for the vehicle identified by the registration information imprinted on the questionnaires, regardless of whether or not he still owns the vehicle.

Mail selection procedures will distinguish the following groups of vehicles:

### **A. Light Trucks**

A sample of "pickups" and "vans" (including panel trucks, minivans, sport utility vehicles, and station wagons built on truck chassis) will be selected. We estimate that the census mail canvass for 1997 will include
