United Technologies Automotive Interior Systems Division Morganfield, Kentucky; Notice of Termination of Certification

This notice terminates the Certification Regarding Eligibility to Apply for NAFTA-Transitional Adjustment Assistance issued by the Department on March 28, 1996, for all workers of United Technologies Automotive, Interior Systems Division, Morganfield, Kentucky. The notice was published in the Federal Register on April 9, 1996 (61 FR 15833).

At the request of the company official, the Department reviewed the certification for workers of the subject firm. The workers at Morganfield, Kentucky were engaged in employment related to the production of automotive interior plastic consoles. New findings show that the imports from Canada reported by the company official were components, not interior plastic consoles. Therefore, criterion (2) of paragraph (a)(1) of Section 250 of the Trade Act of 1974 was not met. The imports of components from Mexico or Canada cannot be considered like or directly competitive with interior plastic consoles.

Since the workers of the subject firm have been determined not to be adversely affected by imports from Mexico or Canada and the company did not shift production of interior plastic consoles to Mexico or Canada, the continuation of the certification would serve no purpose and the certification has been terminated.

A Trade Adjustment Assistance investigation (TA-W-32,264) to determine worker eligibility for benefits under the Trade Act of 1974, will be instituted on April 22, 1996. A determination on worker eligibility should be made within 60 days of the institution date.

Signed at Washington, D.C., this 19th day of April 1996.

Russell T. Kile,

Acting Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION**Records Schedules; Availability and Request for Comments**

AGENCY: National Archives and Records Administration, Office of Records Administration.

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for

records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 U.S.C. 3303a(a).

DATES: Request for copies must be received in writing on or before June 17, 1996. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

ADDRESSES: Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, College Park, MD 20740. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.
