

[NAFTA-00854]

**United Technologies Automotive Interior Systems Division Morganfield, Kentucky; Notice of Termination of Certification**

This notice terminates the Certification Regarding Eligibility to Apply for NAFTA-Transitional Adjustment Assistance issued by the Department on March 28, 1996, for all workers of United Technologies Automotive, Interior Systems Division, Morganfield, Kentucky. The notice was published in the Federal Register on April 9, 1996 (61 FR 15833).

At the request of the company official, the Department reviewed the certification for workers of the subject firm. The workers at Morganfield, Kentucky were engaged in employment related to the production of automotive interior plastic consoles. New findings show that the imports from Canada reported by the company official were components, not interior plastic consoles. Therefore, criterion (2) of paragraph (a)(1) of Section 250 of the Trade Act of 1974 was not met. The imports of components from Mexico or Canada cannot be considered like or directly competitive with interior plastic consoles.

Since the workers of the subject firm have been determined not to be adversely affected by imports from Mexico or Canada and the company did not shift production of interior plastic consoles to Mexico or Canada, the continuation of the certification would serve no purpose and the certification has been terminated.

A Trade Adjustment Assistance investigation (TA-W-32,264) to determine worker eligibility for benefits under the Trade Act of 1974, will be instituted on April 22, 1996. A determination on worker eligibility should be made within 60 days of the institution date.

Signed at Washington, D.C., this 19th day of April 1996.

Russell T. Kile,

*Acting Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.*

**NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**

[Notice 96-045]

**NASA Advisory Council (NAC), Aeronautics Advisory Committee (AAC); Subcommittee on Propulsion Meeting**

**AGENCY:** National Aeronautics and Space Administration.

**ACTION:** Notice of Meeting.

**SUMMARY:** In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Aeronautics and Space Administration announces a NAC, Aeronautics Advisory Committee, Subcommittee on Propulsion meeting.

**DATES:** May 29, 1996, 8:30 a.m. to 5 p.m.; and May 30, 1996, 8:30 a.m. to 4 p.m.

**ADDRESSES:** National Aeronautics and Space Administration, Lewis Research Center, Administration Building, Room 215, 21000 Brookpark Road, Cleveland, OH 44135.

**FOR FURTHER INFORMATION CONTACT:** Dr. Carol J. Russo, National Aeronautics and Space Administration, Lewis Research Center, 21000 Brookpark Road, Cleveland, OH 44135, 216/433-2965.

**SUPPLEMENTARY INFORMATION:** The meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:  
—NASA Aeronautics Program Overview  
—NASA Aeropropulsion Program Overview and Status

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants.

Dated: April 25, 1996.

Leslie M. Nolan,

*Advisory Committee Management Officer.*

BILLING CODE 7510-01-M

**NATIONAL ARCHIVES AND RECORDS ADMINISTRATION****Records Schedules; Availability and Request for Comments**

**AGENCY:** National Archives and Records Administration, Office of Records Administration.

**ACTION:** Notice of availability of proposed records schedules; request for comments.

**SUMMARY:** The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for

records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 U.S.C. 3303a(a).

**DATES:** Request for copies must be received in writing on or before June 17, 1996. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

**ADDRESSES:** Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, College Park, MD 20740. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

**SUPPLEMENTARY INFORMATION:** Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority,

includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

#### Schedules Pending

1. Department of the Army (N1-335-96-1). Routine administrative records of the 50th Anniversary of World War II Commemoration Committee.
2. Department of Energy (N1-434-96-5). Administrative, housekeeping, production, shipping, and stockpile support records for the nuclear weapons program. Historically significant policy direction, program management, weapon effects testing, and nuclear surety files are retained as permanent. Records relating to accidental exposure or other epidemiological concerns will be retained for 75 years.
3. Department of Justice, Federal Bureau of Investigation (N1-065-95-01). Administrative field files relating to applicant matters.
4. Department of Justice, Federal Bureau of Investigation (N1-065-95-02). Administrative field files relating to training matters.
5. Department of Justice, Immigration and Naturalization Service (N1-085-96-4). Consenting Alien Program records.
6. Department of State, Bureau of Public Affairs (N1-059-95-27). Routine, facilitative, and duplicative records of the office of the assistant secretary.
7. Department of Transportation, Federal Aviation Administration (N1-237-96-6). Administrator's Consumer Hotline files.
8. Department of the Treasury, Internal Revenue Service (N1-058-95-3). Tracking reports and work papers relating to the operations of the Taxpayer Ombudsman's Problem Resolution Program.
9. National Archives and Records Administration (N2-260-96-1). Duplicated motion picture film relating to the administration of the Ryukyu Islands, accumulated by the U.S. Civil Administration Ryukyu Islands.
10. Social Security Administration (N1-047-96-2). Records of the office of the Inspector General.
11. Social Security Administration (N1-047-96-3). Records of the Office of the General Counsel.

Dated: April 25, 1996.

James W. Moore,  
Assistant Archivist for Records  
Administration.

## NATIONAL SCIENCE FOUNDATION

### Special Emphasis Panel in Materials Research; Notice of Meetings

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463 as amended), the National Science Foundation announces the following meetings:

*Name:* Special Emphasis Panel in Materials Research (DMR) #1203.

*Dates, and Times:* May 12, 1996, 6 p.m.-9 p.m.; May 13-17, 1996, 8 a.m.-9 p.m.; May 19, 6 p.m.-9 p.m.; May 20-24, 1996, 8 a.m.-9 p.m.

*Place:* National Science Foundation; 4201 Wilson Blvd., Arlington, VA; Rooms 360, 375, 390, & 430.

*Type of Meetings:* Closed.

*Contact Person:* Dr. W. Lance Haworth, Dr. Carmen Huber, or Dr. Ulrich Strom, Program Directors, Materials Research Science and Engineering Centers, Division of Materials Research, Room 1065, National Science Foundation, Arlington, VA 22230. Telephone (703) 306-1810.

*Purpose of Meetings:* To provide advice and recommendations concerning proposals submitted to NSF for financial support.

*Agenda:* Review and evaluate proposals as part of the selection process to determine finalists considered for Materials Research Science and Engineering Center awards.

*Reason for Closing:* The proposals being reviewed include information of a proprietary or confidential nature, including technical information, financial data such as salaries, and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b.(c) (4) and (6) of the Government in the Sunshine Act.

*Reason for Late Notice:* Times and dates could not be finalized until approval by Dr. William C. Harris, Assistant Director, Directorate for Mathematical and Physical Sciences. This approval was contingent upon Program Director recommendations based upon the MRSEC Special Emphasis Panel which met April 15-17, 1996.

Dated: April 29, 1996.

M. Rebecca Winkler,

Committee Management Officer.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-282, 50-306]

### Receipt of Addendum to Petition for Director's Decision Under 10 CFR 2.206

In the matter of Northern States Power Company; Prairie Island Nuclear Generating Plant.

Notice is hereby given that by letter dated March 13, 1996, the Nuclear Information and Resource Service and

the Prairie Island Coalition request that the U.S. Nuclear Regulatory Commission (NRC) take immediate action with regard to steam generator tube inspections at the Prairie Island Nuclear Generating Plant. The letter was a second addendum to an earlier Petition dated June 5, 1995. A first addendum was received from the Petitioners in a letter dated February 19, 1996.

The Petitioners request that the NRC require Northern States Power Company to place Prairie Island Nuclear Generating Plant Units 1 and 2 in mid-cycle outages to inspect the full length of the steam generator tubes using the Zetec Plus Point Probe and any state-of-the-art eddy current test capable of finding circumferentially oriented cracking. If these inspections are not performed, the Petitioners request that the NRC hold an informal public hearing in or near Red Wing, Minnesota, to inform the public why such inspections are not needed.

As the basis for this request, the Petitioners state that the NRC and nuclear utilities operating pressurized-water reactor facilities in the U.S. have known for years that the bobbin coil eddy current inspection probe is not effective at finding circumferentially oriented cracking. Circumferential and axial cracks have been found in the tubesheet region of steam generators; inspections with advanced technology probes that are effective in detecting circumferential cracks, such as the Plus Point Probe, are performed in the tubesheet region. The Petitioners state that since axially oriented cracks have been identified in steam generator free-span regions, circumferentially oriented cracks may also be present there. Thus a full-length tube inspection using state-of-the-art eddy current probe technology would be prudent.

This addendum to the Petition is being treated pursuant to 10 CFR 2.206 of the Commission's regulations and has been referred to the Director of the Office of Nuclear Reactor Regulation. As provided by 10 CFR 2.206, appropriate action will be taken on the Petition within a reasonable time. By letter dated April 22, 1996, the Director denied the request for immediate action to require that Prairie Island Units 1 and 2 be placed in mid-cycle outages to inspect the full length of the steam generator tubes.

Copies of the addenda to the Petition and the Director's letter are available for inspection at the Commission's Public Document Room at 2120 L Street, NW., Washington, DC, and at the Local Public Document Room, Minneapolis Public Library, Technology and Science
