**Total Petroleum, Inc. v. Citgo Products Pipeline Company and Williams Pipe Line Company; Notice of Complaint**

April 29, 1996.

Take notice that on April 19, 1996, Total Petroleum, Inc. (Total) filed a complaint pursuant to section 13(l) of the Interstate Commerce Act (ICA), section 1803 of the Energy Policy Act of 1992, and Rule 206 of the Commission's Rules of Practice and Procedure against Citgo Products Pipeline Company (Citgo) and Williams Pipe Line Company L.P. (Williams) in the above-referenced docket.

Total alleges that Citgo has proposed major changes to its proration policy without first seeking approval of such changes through amendment of its tariff, and that this is a violation of section 6 of the ICA. Total further alleges that the new proration policy and the timing of the change is unduly preferential toward certain shippers, including Citgo's affiliate, Citgo Petroleum Corporation. Total further asserts that the proposed change has reduced the capacity on Citgo that Total can reliably obtain from approximately 200,000 barrels per month to 53,000 barrels per month. To avoid the resulting reduction in its nominations, Total requests the Commission to take immediate action directing Citgo to cease and desist from implementing its new proration policy and to return to its pre-existing policy until lawfully changed.

Any person desiring to be heard or to protest the instant complaint should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, D.C. 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure.
