Total Petroleum, Inc. v. Citgo Products Pipeline Company and Williams Pipe Line Company; Notice of Complaint

April 29, 1996.

Take notice that on April 19, 1996, Total Petroleum, Inc. (Total) filed a complaint pursuant to section 13(l) of the Interstate Commerce Act (ICA), section 1803 of the Energy Policy Act of 1992, and Rule 206 of the Commission's Rules of Practice and Procedure against Citgo Products Pipeline Company (Citgo) and Williams Pipe Line Company L.P. (Williams) in the above-referenced docket.

Total alleges that Citgo has proposed major changes to its proration policy without first seeking approval of such changes through amendment of its tariff, and that this is a violation of section 6 of the ICA. Total further alleges that the new proration policy and the timing of the change is unduly preferential toward certain shippers, including Citgo's affiliate, Citgo Petroleum Corporation. Total further asserts that the proposed change has reduced the capacity on Citgo that Total can reliably obtain from approximately 200,000 barrels per month to 53,000 barrels per month. To avoid the resulting reduction in its nominations, Total requests the Commission to take immediate action directing Citgo to cease and desist from implementing its new proration policy and to return to its pre-existing policy until lawfully changed.

Any person desiring to be heard or to protest the instant complaint should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, D.C. 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure. All such

motions or protests should be filed on or before May 20, 1996. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. Answers to this complaint shall be due on or before May 20, 1996.

Williams Natural Gas Company; Notice of Request Under Blanket Authorization

April 29, 1996.

Take notice that on April 16, 1996, Williams Natural Gas Company (WNG), P.O. Box 3288, Tulsa, Oklahoma 74101, filed in Docket No. CP96-329-000 a request pursuant to Sections 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to install and operate a tap, measuring, regulating, and appurtenant facilities for the delivery of transportation gas to Peoples Natural Gas Company (Peoples) in Harvey County, Kansas, under WNG's blanket certificate issued in Docket No. CP82-479-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

WNG proposes to install a 4-inch tap connection, a dual 3-inch regulator setting, a dual 6-inch orifice meter setting, and appurtenant facilities in the Northeast Quarter (NE/4) of Sections 20, Township 22 South, Range 1 West, Harvey County, Kansas, to deliver transportation gas to Peoples for system supply.

WNG does not anticipate that the deliveries through the new tap will have any effect on peak day deliveries. Peoples estimates the annual delivered volume as 1,825,000 Dth with a peak day volume of 8,000 Dth. The total volume delivered will not exceed total volumes authorized prior to this request. The estimated construction cost is \$97,704 which will be fully reimbursed by Peoples. WNG states that this change is not prohibited by its existing tariff and that it has sufficient capacity to accomplish deliveries

specified without detriment or disadvantage to other customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If not protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
