**SUPPLEMENTARY INFORMATION:** Sections 108 to 109 of the Clean Air Act (CAA) govern the establishment, review, and revision of National Ambient Air Quality Standards (NAAQS). Section 108 directs the Administrator of the U.S. Environmental Protection Agency (EPA) to list pollutants that may reasonably be anticipated to endanger public health or welfare and to issue air quality criteria for them. The air quality criteria are to reflect the latest scientific information useful in indicating the kind and extent of all effects on public health and welfare that may be expected from the presence of the pollutant in ambient air. In keeping with these CAA mandates, this document evaluates the latest scientific information useful in deriving criteria to form scientific bases for decisions regarding possible revision of current PM NAAQS.
