BILLING CODE 7020-02-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (96-048)]

Notice of Prospective Patent License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of prospective patent license.

SUMMARY: NASA hereby gives notice that ARCO Chemical Company, of Newtown Square, Pennsylvania, has applied for an exclusive license to practice the inventions described and claimed in NASA Case No. ARC-12,069-1, "Environmentally-Friendly Deicing Fluid"; NASA Case No. ARC-12,069-2, "Environmentally-Friendly Deicing Fluid", and NASA Case No. ARC-12,069-3, Anti-Icing or Deicing Fluid"; which are all assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. Written objections to the prospective grant of a license should be sent to Mr. Ken Warsh, Patent Counsel, Ames Research Center.

DATES: Responses to this notice must be received by July 8, 1996.

FOR FURTHER INFORMATION CONTACT: Mr. Ken Warsh, Patent Counsel, Ames Research Center, Mail Code 202A-3, Moffett Field, CA 94035; telephone (415) 604-1592.

Dated: April 30, 1996.

Edward A. Frankle,

General Counsel.

BILLING CODE 7510-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-1201; License No. SNM-1168; EAs 95-236 and 95-215]

B&W Fuel Company d/b/a Framatome Cogema Fuels; Order Imposing Civil Monetary Penalty

I

B&W Fuel Company (Licensee) is the holder of Special Nuclear Material License No. SNM-1168 issued by the Nuclear Regulatory Commission (NRC or Commission) in September 1969. The license authorizes the Licensee to possess and use special nuclear material in accordance with the conditions specified therein. The license was last renewed on September 24, 1990, and is due to expire on September 30, 2000.

II

Inspections of the Licensee's activities were conducted during the period of June 12 through October 6, 1995. The results of these inspections indicated that the Licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was served upon the Licensee by letter dated January 30, 1996. The Notice states the nature of the violations, the provisions of the NRC's requirements that the Licensee had violated, and the amount of the civil penalty proposed for the violations.

The Licensee responded to the Notice in a letter dated February 23, 1996. In its response, the Licensee admitted Violations B, and C, and questioned the regulatory basis for Violation A. In addition, the Licensee requested the NRC to reconsider both the severity level of the violations and the proposed civil penalty based on the stated minimal safety significance of the violations and the Licensee's corrective action.

III

After consideration of the Licensee's response and the statements of fact, explanation, and argument for mitigation contained therein, the NRC staff has determined, as set forth in the Appendix to this Order, that the violations occurred as stated and that the penalty proposed for the violations designated in the Notice should be imposed.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (Act), 42 U.S.C. 2282, and 10 CFR 2.205, IT IS HEREBY ORDERED THAT:

The Licensee pay a civil penalty in the amount of \$12,500 within 30 days of the date of this Order, by check, draft, money order, or electronic transfer, payable to the Treasurer of the United States and mailed to Mr. James Lieberman, Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738.

V

The Licensee may request a hearing within 30 days of the date of this Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be made in writing to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission Washington, D.C. 20555, and include a statement of good cause for the extension. A request for a hearing should be clearly marked as a "Request for an Enforcement Hearing" and shall be addressed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission Washington, D.C. 20555, with a copy to the Commission's Document Control Desk, Washington, D.C. 20555. Copies also shall be sent to the Assistant General Counsel for Hearings and Enforcement at the same address and to the Regional Administrator, NRC Region II, 101 Marietta Street, N.W., Suite 2900, Atlanta, Georgia 30323.

If a hearing is requested, the Commission will issue an Order designating the time and place of the hearing. If the Licensee fails to request a hearing within 30 days of the date of this Order (or if written approval of an extension of time in which to request a hearing has not been granted), the provisions of this Order shall be effective without further proceedings. If payment has not been made by that time, the matter may be referred to the Attorney General for collection.

In the event the Licensee requests a hearing as provided above, the issues to be considered at such hearing shall be:
