

for home market indirect selling expenses and profit in the data base. For these missing values, we assigned values of the average of home market selling expenses and profit reported for other home market products. Otherwise, we relied on the respondents' reported CV amounts, as verified by the Department. For selling expenses, we used the weighted-average home market direct and indirect selling expenses.

#### Currency Conversion

For purposes of the preliminary results, in accordance with section 773(A)(a), we made currency conversions based on the official exchange rates in effect on the dates of the U.S. sales as certified by the Federal Reserve Bank of New York. Section 773A(a) directs the Department to use a daily exchange rate in order to convert foreign currencies into U.S. dollars.

#### Non-Shipper

Pacific Pipe stated that it did not have shipments during the POR, and we confirmed this with the United States Customs Service. Therefore, we are treating Pacific Pipe as a non-shipper for this review.

#### Preliminary Results of the Review

As a result of our comparison of USP and NV, we preliminarily determine that the following weighted-average dumping margin exists:

Manufacturer/Exporter	Period	Margin
Saha Thai Pacific Pipe Co. ....	3/1/94- 2/28/95	1.07%
	3/1/94-2/28/95	(1)

(1) No sales during review period.

Parties to the proceeding may request disclosure within five days of the date of publication of this notice. Any interested party may request a hearing within 10 days of publication. Any hearing, if requested, will be held 44 days after the date of publication or the first business day thereafter. Case briefs and/or other written comments from interested parties may be submitted not later than 30 days after the date of publication. Rebuttal briefs and rebuttals to written comments, limited to issues raised in those comments, may be filed not later than 37 days after the date of publication of this notice. The Department will publish the final results of this administrative review, which will include the results of its analysis of issues raised in any such comments.

The Department shall determine, and the Customs Service shall assess,

antidumping duties on all appropriate entries. Individual differences between export price and NV may vary from the percentage stated above. Upon completion of this review, the Department will issue appraisal instructions directly to the Customs Service.

Furthermore, the following deposit rates will be effective upon the publication of the final results of these administrative reviews for all shipments of welded carbon steel pipes and tubes from Thailand entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(c) of the Act: (1) The cash deposit rate for the reviewed companies will be that established in the final results of this review; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, or the original LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; (4) the cash deposit rate for all other manufacturers or exporters will continue to be 15.67 percent, the "All Others" rate made effective by the LTFV investigation. These requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

These preliminary results of review are published pursuant to section 751(a)(1) of the Act and 19 CFR 353.22.

Dated: April 29, 1996.

Susan G. Esserman,  
Assistant Secretary for Import  
Administration.

## National Oceanic and Atmospheric Administration

[I.D. 050296A]

### Endangered Species; Permits

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Issuance of permit 1001 (P606) and receipt of a notification of withdrawal of a request for a permit (P45V).

**SUMMARY:** Notice is hereby given that NMFS has issued a permit that authorizes a take of an Endangered Species Act-listed species for the purpose of scientific research/monitoring, subject to certain conditions set forth therein, to the Contra Costa Water District at Concord, CA (CCWD) and has received a notification of withdrawal of a request for a scientific research/enhancement permit from the U.S. Fish and Wildlife Service at Sacramento, CA (FWS).

**ADDRESSES:** The applications and related documents are available for review in the following offices, by appointment:

Office of Protected Resources, F/PR8, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Environmental and Technical Services Division, 525 NE Oregon Street, Suite 500, Portland, OR 97232-4169 (503-230-5400).

**SUPPLEMENTARY INFORMATION:** The permit was issued under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217-222).

Notice was published on February 23, 1996 (61 FR 6975) that an application had been filed by CCWD (P606) for a scientific research/monitoring permit. Permit 1001 was issued to CCWD on April 26, 1996. Permit 1001 authorizes CCWD a take of juvenile, endangered, Sacramento River winter-run chinook salmon (*Oncorhynchus tshawytscha*) associated with monitoring the Mallard Slough pumping facility for the presence of ESA-listed species in compliance with the California ESA requirements provided by the California Department of Fish and Game. The monitoring results will indicate the relative abundance of sensitive fish species and allow CCWD to modify the operation of the Mallard Slough facility as necessary to minimize potential entrainment losses. Permit 1001 expires on July 31, 2001.

Notice was published on November 27, 1995 (60 FR 58334) that an application had been filed by FWS (P45V) for a scientific research/enhancement permit. FWS applied for a scientific research/enhancement permit to continue their authorization to take adult and juvenile, endangered, Sacramento River winter-run chinook salmon (*Oncorhynchus tshawytscha*) associated with supplementation hatchery programs and a captive broodstock program, currently authorized under permit 747. Permit 747, issued to FWS on August 8, 1991, was to expire on December 31, 1995 but was extended by two amendments (61 FR 346, January 4, 1996; 61 FR 16898, April 18, 1996) to expire on November 30, 1996. Due to continued technical concerns with hybridization and imprinting problems, NMFS was unable to complete the necessary actions required to issue a new scientific research/enhancement permit to replace permit 747.

The amendments also established a moratorium on the collection of adult ESA-listed fish for broodstock in 1996 to avoid compromising the genetic integrity of the winter-run chinook salmon population due to the hybridization problems and to avoid a significant drain on the 1996 spawning population if juveniles continue to imprint exclusively on Battle Creek, where FWS's Coleman National Fish Hatchery is located, rather than returning to the mainstem Sacramento River as intended.

NMFS has received notification that FWS would like to withdraw their request for a scientific research/enhancement permit. Prior to the expiration of permit 747, FWS will submit a new scientific research/enhancement permit application that will fully discuss the operational procedures to be implemented to correct the hybridization and imprinting problems.

Issuance of the permit, as required by the ESA, was based on a finding that the permit: (1) Was requested in good faith, (2) will not operate to the disadvantage of the ESA-listed species that is the subject of the permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA and the NMFS regulations governing ESA-listed species permits.

Dated: May 2, 1996.

Margaret Lorenz,  
Acting Chief, Endangered Species Division,  
Office of Protected Resources, National  
Marine Fisheries Service.

### Marine Mammals

**AGENCY:** National Marine Fisheries Service (NMFS), NOAA, Commerce.

**ACTION:** Issuance of modification to permit no. 778 (P772#59).

**SUMMARY:** Notice is hereby given that on [leave blank for date stamp] Permit No. 778, issued to The National Marine Fisheries Service, Southwest Fisheries Science Center, La Jolla, CA 92038, was modified.

**ADDRESSES:** The modification and related documents are available for review upon written request or by appointment in the following office(s):

Permits Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Suite 13130 Silver Spring, MD 20910 (301/713-2289);

Director, Southwest Region, National Marine Fisheries Service, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213 (310/980-4001); and

Coordinator, Pacific Area Office, Southwest Region, National Marine Fisheries Service, 2570 Dole Street, Room 106, Honolulu, HI 96822-2396 (808/973-2987).

**SUPPLEMENTARY INFORMATION:** The subject modification has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the provisions of Sections 216.33(d) and (3) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the provisions of Section 222.25 of the regulations governing the taking, importing, and exporting of endangered fish and wildlife (50 CFR Part 222).

The permittee is authorized to increase the number of seals authorized to be retagged under the permit from 250 to 500. This modification involves no increase in the originally authorized take of 1200 monk seals.

Dated: April 29, 1996.

Ann D. Terbush,  
Chief, Permits & Documentation Division,  
Office of Protected Resources.

### Marine Mammals

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

**ACTION:** Modification no. 2 to scientific research permit No. 840 (P531D).

**SUMMARY:** Notice is hereby given that a request for modification of scientific research permit No. 840 submitted by Mr. Craig Matkin, North Gulf Oceanic Society, Merimac Drive, Mile 10.5 East Road, Homer, AK 99603, has been granted.

**ADDRESSES:** The modification and related documents are available for review upon written request or by appointment in the following offices: Permits Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Suite 13130, Silver Spring, MD 20910 (301/713-2289); and Director, Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802-1668 (907/586-7221).

**SUPPLEMENTARY INFORMATION:** On February 20, 1996, notice was published in the Federal Register (61 FR 6353) that a modification of permit No. 840, issued May 25, 1993 (59 FR 31370), had been requested by the above-named individual. The requested modification has been granted under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the provisions of §§ 216.33(d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 840 authorizes biopsy sampling and photo-identification and behavioral studies of killer whales in Prince William Sound and adjacent waters. It has been modified to expand the research to include all Alaska waters.

Dated: April 26, 1996.

Ann D. Terbush,  
Chief, Permits and Documentation Division,  
Office of Protected Resources, National  
Marine Fisheries Service.
