Texas Eastern Transmission Corp.; Notice of Petition To Amend

April 30, 1996.

Take notice that on April 24, 1996, Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 1642, Houston, Texas 77251-1642, filed in Docket No. CP92-184-014, a petition to amend the existing authorizations issued July 16, 1993, and June 6, 1995, in Docket Nos. CP92-184-000 *et al.* pursuant to Section 7(c) of the Natural Gas Act, to provide for relocation and installation of certain facilities which are necessary in conjunction with the eastern Pennsylvania portion of Texas Eastern's Integrated Transportation Project (ITP) replacement and expansion, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By order issued July 16, 1993, as amended by order issued June 6, 1995, Texas Eastern was authorized to construct and operate various pipeline, pipeline looping, pipeline replacement and compression facilities in order to implement a new firm incremental transportation service for various customers. The project, known as the ITP project, involved construction of facilities to provide 201,000 Dekatherms per day (Dthd) of incremental capacity on the Texas Eastern system. ITP is a four-year project which includes construction of 89 miles of pipeline in 23 discrete segments in four states, the addition of over 48,000 horsepower of compression and other modifications at ten existing compressor stations, and the addition of certain new metering and regulating stations and other related facilities.

One segment of the authorized ITP project is the installation in 1996 of 1.7 miles of 36-inch pipeline to replace existing 20-inch pipeline between Eagle, Pennsylvania and Lambertsville, New Jersey in Bucks County, Pennsylvania (Eagle Replacement). The eastern terminus of the replacement facilities would be at approximately Milepost 1419.98 on Texas Eastern's system. Texas Eastern asserts that the Eagle Replacement requires installation of certain above-ground appurtenant facilities at the eastern end of the
