Panhandle Eastern Pipe Line Company; Notice of Proposed Changes in FERC Gas Tariff

May 6, 1996.

Take notice that on May 1, 1996, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the tariff sheets listed on Appendix A attached to the filing, proposed to be effective June 1, 1996.

Panhandle states that the purpose of this filing is to provide Panhandle's firm shippers under Rate Schedules FT, EFT and LFT with a customized reservation rate that will allow them maximum flexibility in dealing with market conditions throughout the contract year. The Customized Reservation Pattern (CRP) election will allow a firm shipper to shift, during each twelve month period commencing November 1, up to 80% of the reservation charge obligation for the April to October period into the preceding November to March period. By permitting a shipper to customize its cost-based reservation charges, CRP will raise or lower the maximum monthly charge to better reflect conditions in its own markets and to the secondary market for capacity release. This will further the Commission's goals of allocating capacity to those shippers who value it most and permit shippers to contract for services at rates which are designed to market gas and services competitively.

Panhandle states that a copy of this filing are being served on all affected customers and applicable state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888
