MERIT SYSTEMS PROTECTION BOARD

Notice of Toll Free Information Line

AGENCY: Merit Systems Protection Board.

ACTION: The Merit Systems Protection Board announces it toll free information line.

SUMMARY: The U.S. Merit Systems Protection Board (MSPB) has installed a toll free information line for customers to check on the status of their appeals, request copies of Board studies and publications, and receive general information. MSPB customers—Federal employees, agencies, and the general public—will hear a recorded announcement that will guide them through menu selections to route their requests to the appropriate MSPB office mailbox. Calls will be returned promptly or requests will be satisfied appropriately. The toll free number is 1-800-209-8960.

FOR FURTHER INFORMATION CONTACT: Patricia Ealey, Office of the Clerk of the Board (202) 653-7200.

Dated: May 7, 1996.

Robert E. Taylor,

Clerk of the Board.

BILLING CODE 7400-01-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 96-049]

NASA Advisory Council (NAC), Aeronautics Advisory Committee (AAC); Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Aeronautics Advisory Committee.

DATES: June 11, 1996, 8:30 a.m. to 5:00 p.m.; and June 12, 1996, 8:30 a.m. to 11:45 a.m.

ADDRESSES: National Aeronautics and Space Administration, Room 7H46, 300 E Street, S.W., Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Ms. Mary-Ellen McGrath, Office of Aeronautics, National Aeronautics and Space Administration, Washington, DC 20546 (202/358-4729).

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:

- Aeronautics Overview
- University Strategy Update
- Affordable Design and Manufacturing (ADAM) Activities
- Subcommittee Reports
- Subcommittee Restructuring
- Update on Current Alliances
- Overview of X31 Program Results
- Wind Tunnel Briefing
- NASA Aeronautics Home Page

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants.

Dated: May 7, 1996.

Leslie M. Nolan,

Advisory Committee Management Officer.

BILLING CODE 7510-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-440]

The Cleveland Electric Illuminating Company, Et Al.; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of The Cleveland Electric Illuminating Company, et al. (the licensee) to withdraw its June 18, 1993, application for proposed amendment to Facility Operating License No. NPF-58 for the Perry Nuclear Power Plant, Unit No. 1, located in Lake County, Ohio.

The proposed amendment would have modified the facility technical specifications pertaining to Figure 5.1.1-1, "Exclusion Area, Unrestricted Area for Liquid Effluents and Site Boundary for Gaseous Effluents."

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the Federal Register on September 15, 1993 (58 FR 48389). However, by letter dated April 26, 1996, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for

amendment dated June 18, 1993, and the licensee's letter dated April 26, 1996, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Perry Public Library, 3753 Main Street, Perry, Ohio.

Dated at Rockville, Maryland, this 7th day of May 1996.

For the Nuclear Regulatory Commission.

Jon B. Hopkins,

Project Manager, Project Directorate III-3, Division of Reactor Projects—III/IV, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

[Docket No.: 040-08974]

Consideration of Amendment Request for Decommissioning the Molycorp, Inc., Facility in York, Pennsylvania, and Opportunity for a Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of consideration of amendment request for decommissioning the Molycorp, Inc., facility in York, Pennsylvania, and opportunity for a hearing.

The U.S. Nuclear Regulatory Commission is considering issuance of a license amendment to Source Material License No. SMB-1408, issued to Molycorp, Inc. (the licensee), to authorize decommissioning of its former rare earth processing facility in York, Pennsylvania.

The licensee submitted the site decommissioning plan (SDP) to NRC for review on August 14, 1995. Radioactive contamination at the licensee's York facility consists of soils containing thorium-228 and uranium-238 with a volume of approximately 90,000 cubic feet that resulted from operations to recover rare earth metals from ore. These operations were conducted from April 1962 to August 1991.

The NRC will require the licensee to remediate the York facility to meet NRC's decommissioning criteria, and during the decommissioning activities, to maintain effluents and doses within NRC requirements and as low as reasonably achievable.

Prior to approving the decommissioning plan, NRC will have made findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation

Report and an Environmental Assessment. Approval of the SDP will be documented in an amendment to NRC License No. SMB-1408.

The NRC hereby provides notice that this is a proceeding on an application for amendment of a license falling within the scope of Subpart L "Informal Hearing Procedures for Adjudication in Materials Licensing Proceedings," of NRC's rules and practice for domestic licensing proceedings in 10 CFR Part 2. Pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(c). A request for a hearing must be filed within thirty (30) days of the date of publication of this Federal Register notice.

The request for a hearing must be filed with the Office of the Secretary either:

1. By delivery to the Docketing and Service Branch of the Secretary at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738; or

2. By mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Attention: Docketing and Service Branch.

In addition to meeting other applicable requirements of 10 CFR Part 2 of the NRC's regulations, a request for a hearing filed by a person other than an applicant must describe in detail:

1. The interest of the requester in the proceeding;

2. How that interest may be affected by the results of the proceeding, including the reasons why the requestor should be permitted a hearing, with particular reference to the factors set out in § 2.1205(g);

3. The requestor's areas of concern about the licensing activity that is the subject matter of the proceeding; and

4. The circumstances establishing that the request for a hearing is timely in accordance with § 2.1205(c).

In accordance with 10 CFR § 2.1205(e), each request for a hearing must also be served, by delivering it personally or by mail, to:

1. The applicant, Molycorp Incorporated, 350 North Sherman Street, York, Pennsylvania 17403, Attention: Ms. Barbara Dankmyer; and

2. The NRC staff, by delivery to the Executive Director for Operations, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, or by mail, addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

For further details with respect to this action, the site decommissioning plan is available for inspection at the NRC's

Public Document Room, 2120 L Street N.W., Washington, DC 20555.

Dated at Rockville, Maryland, this 6th day of May, 1996.

For the Nuclear Regulatory Commission.

Robert A. Nelson,

Acting Chief, Low-Level Waste and Decommissioning, Projects Branch, Division of Waste Management, Office of Nuclear Material Safety, and Safeguards.

[FR Doc. 96-11876 Filed 5-10-96; 8:45 am]

BILLING CODE 7590-01-P

NRC Bulletin 96-03, Potential Plugging of Emergency Core Cooling Suction Strainers by Debris in Boiling-Water Reactors

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of issuance.

SUMMARY: The Nuclear Regulatory Commission (NRC) has issued Bulletin 96-03 to request boiling-water reactor (BWR) licensees to implement measures to ensure the capability of the emergency core cooling system (ECCS) to perform its safety function following a loss-of-coolant accident (LOCA), and require that BWR licensees report to the NRC whether and to what extent the requested actions will be taken and to notify the NRC when the actions associated with the bulletin are complete. This bulletin is available in the NRC Public Document Room under accession number 9605020119. This bulletin is discussed in Commission information paper SECY-96-087 which is also available in the NRC Public Document Room.

DATES: The bulletin was issued on May 6, 1996.

ADDRESSES: Not applicable.

FOR FURTHER INFORMATION CONTACT:

Robert B. Elliott, (301) 415-1397 or Internet: rbe@nrc.gov, or M. David Lynch, (301) 415-3023 or Internet: mdl@nrc.gov.

SUPPLEMENTARY INFORMATION: The NRC issued this bulletin to request BWR licensees to implement appropriate procedural measures and plant modifications to minimize the potential for clogging of ECCS suppression pool suction strainers by debris generated during a LOCA. The NRC has identified three potential resolution options, which include (1) the installation of a large capacity passive strainer design, (2) the installation of a self-cleaning strainer, and (3) the installation of a backflush system. However, licensees may propose an alternative course of action provided it offers an equivalent level of assurance that the ECCS will be

able to perform its safety function following a LOCA. The actions requested by this bulletin are considered backfits in accordance with NRC procedures and are necessary to ensure compliance with existing NRC rules and regulations. In particular, Section 50.46 of Title 10 of the *Code of Federal Regulations* (10 CFR 50.46) requires that adequate ECCS flow be provided to maintain the core temperature at an acceptably low value and to remove decay heat for the extended period of time required by the long-lived radioactivity remaining in the core following a design basis accident. Therefore, this bulletin was issued as a compliance backfit under the terms of 10 CFR 50.109(a)(4)(i).

Dated at Rockville, Maryland, this 7th day of May, 1996.

For the Nuclear Regulatory Commission.

Brian K. Grimes,

Acting Director, Division of Reactor Program Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

OFFICE OF PERSONNEL MANAGEMENT

Proposed Collection; Comment Request for Review of a Revised Information Collection; OPM 2809-EZ1

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Public Law 104-13, May 22, 1995), this notice announces that the Office of Personnel Management intends to submit to the Office of Management and Budget a request for clearance of a revised information collection. OPM 2809-EZ1, Enrollment Change and Brochure Request, is used only at Open Season to request an enrollment change, insurance plan brochures, and other informational materials. If OPM Form 2809-EZ1 is used to request plan brochures, an OPM Form 2809-EZ2 is furnished to the enrollee for use if a plan change is desired.

Approximately 74,200 OPM Forms 2809-EZ1 are completed annually. Each form requires approximately 30 minutes to complete. The annual burden is 37,100 hours.

For copies of this proposal, contact Jim Farron on (202) 418-3208, or E-mail to jmfarron@mail.opm.gov

DATES: Comments on this proposal should be received on or before July 12, 1996.
