INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-746 (Preliminary)]

Beryllium Metal and High-Beryllium Alloys From Kazakhstan

Determination

On the basis of the record¹ developed in the subject investigation, the Commission determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. § 1673b(a)), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Kazakhstan of beryllium metal and high-beryllium alloys,² that are alleged to be sold in the United States at less than fair value (LTFV).³

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR § 207.2(f)).

² The subject products are beryllium metal and high-beryllium alloys with a beryllium content equal to or greater than 30 percent by weight, whether in ingot, billet, powder, block, lump, chunk, blank, or other semifinished form. These are intermediate or semifinished products that require further machining, casting and/or fabricating into sheet, extrusions, forgings or other shapes in order to meet the specifications of the end user. Beryllium metal and high-beryllium alloys within the scope of this investigation are classifiable under subheadings 8112.11.60, 8112.11.30, 7601.20.90, and elsewhere in the Harmonized Tariff Schedule of the United States (HTS). Although the HTS subheadings are provided for convenience and Customs purposes, the written description of the scope of this investigation is dispositive; e.g., subject cut-to-size blocks and drilled tubular blanks of beryllium metal may be provided for as wrought products in HTS subheading 8112.19.00.

³ Commissioner Lynn M. Bragg finds that there is a reasonable indication that an industry in the United States is threatened with material injury by reason of imports from Kazakhstan of beryllium
