BILLING CODE 3410–30–P

Food Safety and Inspection Service

[Docket No. 96–019N]

Location of Proposed Technical Service Center; Opportunity To Present Alternative Sites for Consideration

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice.

SUMMARY: The Food Safety and Inspection Service (FSIS) is considering creating a Technical Service Center to provide technical assistance, advice, and guidance for FSIS Field Operations personnel and the regulated meat, poultry, and egg products industries. FSIS is providing interested parties the opportunity to present recommended sites for its proposed Technical Service Center.

DATES: Requests to make a presentation to the Agency must be received by June 14, 1996.

ADDRESSES: Mr. O.V. Cummings, Director, Administrative Services Division, Food Safety and Inspection Service, 14th and Independence Ave., SW, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: Mr. O.V. Cummings or Mr. Glen Durst at the above address or at (202) 720–3551, Fax (202) 205–7392.

SUPPLEMENTARY INFORMATION: FSIS has submitted a proposed reorganization plan to the Secretary of Agriculture for approval. The plan establishes a

Technical Service Center to provide technical assistance, advice, and guidance for FSIS Field Operations personnel and the regulated meat, poultry, and egg products industries. The Center would house approximately 100 FSIS employees to provide guidance on the enforcement and application of FSIS domestic and import regulations, policies, and systems.

Approximately half of the employees that would be assigned to the Center are currently located in the Washington, D.C. area, with the remainder of the employees in the five Regional Offices or other locations. Locating the Center in the Washington D.C. area would result in the lowest initial cost to the Agency because there would be no relocation costs for employees already assigned to the Washington D.C. area. In addition, locating the Center in the Washington, D.C. metropolitan area would enhance FSIS's ability to coordinate Agency functions with the Center.

However, locating the Center in a rural area could serve the Agency well in the long term. Experience shows that it is easier to recruit employees in areas where the cost of living is relatively low. In addition, locating the Center in the middle of the country would make it easier to serve field personnel and industry because the time difference between the Center and offices located on the east and west coast would not be so great.

FSIS invites recommendations regarding the location of the Technical Service Center. Persons interested in proposing sites for the Center should address issues of initial costs, other costs, and benefits associated with a particular, recommended location. The proposed locations should, at a minimum, meet the following criteria:

- Offer an adequate selection of moderate to middle income housing.
- Be within reasonable driving distance to a major airport because there will be occasional travel to and from the 18 proposed district offices and Washington, D.C.
- Have nearby hotel/motel accommodations.
- Have available office space to support the Center staff (approximately 20,000 square feet).

The presentations may be given in person, on videotape, or by conference call. Written recommendations should be sent to Mr. O.V. Cummings (See **ADDRESSES**).

The Agency will contact respondents to schedule the presentations to be given at FSIS headquarters. Presenters from outside the Washington D.C. area who wish to make presentations at FSIS

headquarters must make their own travel arrangements and pay their own travel expenses.

Done at Washington, DC, on May 9, 1996.
Michael R. Taylor,
Acting Under Secretary for Food Safety.
