

that North Dakota durum wheat acreage totals about 2.5 million acres. Not all durum wheat acres are infested with trifluralin resistant foxtails and the applicant requests that Puma 1EC treatments be permitted on up to 300,000 acres of durum wheat which are infested with trifluralin resistant foxtails. Applications of Puma 1EC would be made postemergent to wheat and foxtail emergence via ground or aerial application methods between May 15 and July 15, 1996 when foxtail weeds are susceptible to control by this product. Application rates range from 0.33 to 0.66 pints of Puma 1EC per acre depending on weed species controlled.

**Ciba Plant Protection; Establishment
of a Temporary Tolerance**

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established a temporary tolerance for residues of the herbicide CGA-277476 (2-[[[(4,6-dimethyl-2-pyrimidinyl)-amino]carbonyl]amino]-sulfonyl]benzoic acid, 3-oxetanyl ester in or on the raw agricultural commodity soybeans at 0.01 part per million (ppm). This temporary tolerance was requested by Ciba Plant Protection.

DATES: This temporary tolerance expires December 31, 1997.

FOR FURTHER INFORMATION CONTACT: By mail: Robert Taylor, Product Manager (PM) 25, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 245, CM#2, 1921 Jefferson Davis Highway, Arlington, VA (703) 557-6800; e-mail: taylor.robert@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Ciba Plant Protection, P.O. Box 18300, Greensboro, NC 27419-8300, has requested in pesticide petition (PP) 5G4513 the establishment of a temporary tolerance

for residues of the herbicide CGA-277476 (2-[[[(4,6-dimethyl-2-pyrimidinyl)-amino]carbonyl]amino]-sulfonyl]benzoic acid, 3-oxetanyl ester in or on the raw agricultural commodity soybeans at 0.01 part per million (ppm).

This temporary tolerance will permit the marketing of the above raw agricultural commodity when treated in accordance with the provisions of the experimental use permit 100-EUP-101, which is being issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (Pub. L. 95-396, 92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material were evaluated, and it was determined that establishment of a temporary tolerance will protect the public health. Therefore, the temporary tolerance has been established on the condition that the pesticide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredient to be used must not exceed the quantity authorized by the experimental use permit.
2. Ciba must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This tolerance expires December 31, 1997. Residues not in excess of this amount remaining in or on the raw agricultural commodity after this expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerance. This tolerance may be revoked if the experimental use permit

is revoked or if any experience with or scientific data on this pesticide indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirement of section 3 of Executive Order 12866.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24950).
