

in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 3/4/96 (61 FR 8271); no comments were received.

**Burden Statement:** Burden means the total time, effort, or financial resources expended by persons to generate,

maintain, retain, or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjusting the existing ways to comply

with previously applicable instructions and requirements; training personnel to be able to respond to a collection of information; searching data sources; completing and reviewing the collection of information, and transmitting or otherwise disclosing the information.

The following table represents the estimated annual burden for this ICR.

Activity	Burden hours	Cost per response	Frequency	Number of respondents
A. Pre-certification exemptions:				
1. Manufacturers .....	3	\$180.00	1	40
2. ICI .....	3	180.00	1	25
B. Testing exemptions:				
1. Manufacturers/No Importation .....	40	2,400.00	1	15
2. NonManufacturers/No Importation .....	5.25	315.50	1	5
3. All/Importation .....	3	180.00	1	55

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 95.08 and OMB Control No. 2060-0007 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street SW., Washington, D.C. 20460 and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street NW., Washington, D.C. 20503.

Dated: May 14, 1996.

Joseph Retzer,

Director, Regulatory Information Division.

**Agency Information Collection Activities: Submission for OMB Review; Comment Request; Emission Defect Information and Voluntary Emissions Recall Reports**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(a)(1)(D)), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and

approval: Emission Defect Information and Voluntary Emissions Recall Reports (OMB Control No. 2060-0048, approved through 5/31/96). The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before June 19, 1996.

**FOR FURTHER INFORMATION OR A COPY**

**CALL:** Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 282.08.

**SUPPLEMENTARY INFORMATION:**

*Title:* Emission Defect Information and Voluntary Emissions Recall Reports (OMB Control No. 2060-0048; EPA ICR No. 282.08) expiring 5/31/96. This ICR is requesting an extension of a currently approved collection activity.

*Abstract:* Some manufacturers of motor vehicles and certain engines are required to submit two different reports under 40 CFR Part 85, Subpart T, Part 89, Subpart I and Part 90, Subpart I. These reports are only required where certain conditions involving emission defects or voluntary recalls occur.

The "defect information report" (DIR) contains data regarding the class or engine family and number of vehicles or engines on which a defect has been found, and a description of the defect and its effects on vehicle or engine performance and emissions. The Agency uses the DIR to help identify emission-related defects or classes of vehicles or engines which may not comply with federal emissions standards.

The "voluntary emission recall" (VER) report contains data on voluntary recall campaigns conducted by manufacturers, including the procedures used by the manufacturers to conduct voluntary recall campaigns, the identification of vehicles or engines

affected by the campaign, and the repair to be completed on recalled vehicles or engines; progress or quarterly updates of the VER reports track the number of vehicles or engines repaired. The Agency uses the VER report and progress reports to ensure that manufacturers are following acceptable procedures when conducting recalls and to track the progress and effectiveness of voluntary recall campaigns.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 3/4/96 (61 FR 8273); no comments were received.

**Burden Statement:** Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjusting the existing ways to comply with any previously applicable instructions and requirements; training personnel to be able to respond to a collection of information; searching data sources, completing and reviewing the collection of information; and transmitting or otherwise disclosing the information.

*Respondents/Affected Entities:* Motor vehicle, motor vehicle engine, large non-road and small non-road engine manufacturers.

*Estimated Number of Respondents:* 33  
*Estimated Total Annual Burden:* 1669 hours.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 282.08 and OMB Control No. 2060-0048 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street SW., Washington, DC 20460 and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA 725 17th Street NW., Washington, DC 20503.

Dated: May 14, 1996.

Joseph Retzer,

Director, Regulatory Information Division.

**Agency Information Collection Activities Under OMB Review; National Emission Standards for Hazardous Air Pollutants: Inorganic Arsenic Emissions From Glass Manufacturing Facilities (Subpart N)**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(a)(1)(D)), this notice announces that the Information Collection Request (ICR) for the National Emission Standards for Hazardous Air Pollutants: Inorganic Arsenic Emissions from Glass Manufacturing Facilities (Subpart N) described below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before June 19, 1996..

**FOR FURTHER INFORMATION OR A COPY**

**CALL:** Sandy Farmer at EPA, (202) 260-

2740, and refer to EPA ICR No. 2060-0043.

**SUPPLEMENTARY INFORMATION:**

*Title:* OMB Control No. 2060-0043; EPA ICR No. 1081.05. This is a request for extension of a currently approved collection.

*Abstract:* The Administrator has judged that arsenic emissions from glass manufacturing plants cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Owners or operators of sources covered by these standards are subject to the recordkeeping and reporting requirements of the standards as well as those standards prescribed in the General Provisions of the NESHA.

*Owners or operators of the affected facilities described must make the following one-time-only reports:* Application for approval of construction or modification (new sources) or a source report (existing sources or new sources with initial start-up preceding effective date of standard); and notification of anticipated and actual dates of start-up. Calculations estimating new emission levels must be reported whenever a change of operation is made that would potentially increase emissions.

Sources subject to these standards are required to demonstrate initial compliance through emission tests. In addition, a continuous monitoring system for the measurement of the opacity of emissions from any control device must be installed and operated. Records of continuous emission monitoring (CEM) results and other data needed to determine emission concentrations shall be maintained at the source and made available for inspection for a minimum of two years.

A written report of each period for which emission rates exceeded the emission limits is required semiannually. All reports are sent to the delegated State or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office. Applications and source reports are sent directly to the EPA Regional Office. Applications and source reports are used to inform the Agency or delegated authority when a source becomes subject to the standards, and the nature of that source. Notification of start-up informs the reviewing authority at what date the source becomes subject to the standards. The reviewing authority may then inspect the source to check if the pollution control devices are properly installed and operated.

Reports, including calculations estimating any subsequent emission

levels, are necessary to keep the Agency informed about the source's activities in terms of hazardous air pollutant emissions.

In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on September 29, 1995.

*Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 6,769 hours. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:* 47.

*Estimated Number of Respondents:* 47.

*Frequency of Response:* 2.

*Estimated Number of Responses:* 43.

*Estimated Total Annual Hour Burden:* 6769 hours.

*Estimated Total Annualized Cost Burden:* \$206,116.

Sent comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1081.05 and OMB Control No. 2060-0043 in any correspondence.
