Bureau of Land Management

[AZ-026-05-5440-10-A132; AZA 29170]

Arizona: Continuation of Public Land Segregation, Pima County, Arizona

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice continues the segregation on the 20 acres cited in notice documents 95-21078, page 44042 in the issue of Thursday, August 24, 1995; and 95-22914, page 47961 in the issue of Friday, September 15, 1995. The segregation is continued because the noncompetitive sale of public lands cannot take place until the Lower Gila Resource Area RMP Amendment is finalized. The segregation from appropriation under the public land laws, including the mining laws, on the following land will continue for 270 days from the date of this publication:

Gila and Salt River Meridian, Arizona
T. 12 S., R. 6 W.,
Sec. 33, SE $\frac{1}{4}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$.
The area described contains 20 acres.

Bureau of Reclamation

FES 96 29

South Bay Water Recycling Project, San Jose, California

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability on the final environmental impact statement.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) of 1969 (as amended), the Bureau of Reclamation (Reclamation) has prepared a final environmental impact statement (FEIS) for the South Bay Water Recycling Project (SBWRP). The FEIS is based on a 1992 environmental impact report (EIR) prepared by the City of San Jose (City). The SBWRP would divert treated freshwater effluent from South San Francisco Bay through a water reclamation program. This would include construction of pump stations and recycled distribution pipelines. Reclamation would provide a grant of up to 25 percent of the total project cost to the City to support the SBWRP.

ADDRESSES: Copies of the FEIS are also available for the public at the following locations:

- Bureau of Reclamation, Mid-Pacific Regional Liaison, 1849 C Street NW., Washington, DC 20240; telephone: (202) 208-6274.
- Bureau of Reclamation, Regional Director, Attn: MP-720 2800 Cottage Way, Sacramento, CA 95825-1898; telephone: (916) 979-2297.
- Bureau of Reclamation, Mid-Pacific Regional Library, 2800 Cottage Way, Sacramento, CA. 95825-1898; telephone: (916) 979-2462.
- City of San Jose, Environmental Services Department, Tech. Support Division., 700 Los Esteros Road, San Jose, CA 95134; telephone: (408) 945-5300.

Libraries:

Copies will also be available at public libraries located in San Jose (Main, Alviso, Berryessa, East San Jose, Carnegie, and Empire Branches).

FOR FURTHER INFORMATION CONTACT: Ms. Mona Jefferies-Sonia, Bureau of Reclamation, Division of Planning, 2800 Cottage Way, Sacramento, CA 95825; telephone (916) 979-2297.

SUPPLEMENTARY INFORMATION: The SBWRP, formerly known as the San Jose Nonpotable Reclamation Project, was developed in response to an order from the Environmental Protection Agency (EPA) and the California Regional Water Quality Control Board—San Francisco Region in order to re-establish salinity

levels of the salt water marsh in the southern tip of San Francisco Bay. In addition to protecting the South Bay habitat, the program also develops nonpotable water supply for the Santa Clara Valley, which can be used in place of potable water for appropriate purposes. Funding will come from loans from the State Water Resources Control Board and EPA, a grant from Reclamation, and local funding. The SBWRP would be implemented in two phases: Phase I would consist of installing facilities to supply up to 9,000 acre-feet/year of nonpotable water for landscape irrigation, agriculture and industrial uses. Phase II would consist of installing facilities to supply an additional up to 27,000 acre-feet/year for either nonpotable or potable use. The City completed a final EIR for the SBWRP in November 1992 to comply with the California Environmental Quality Act. At that time, Reclamation had not been involved and therefore no federal requirement for compliance with NEPA existed. The FEIS is based on this final EIR. The EIR analyzed Phase I in detail and analyzed Phase II programmatically.

The proposed action (Phase I) is to construct pump stations, storage tanks, 48.5 miles of 6 to 54-inch diameter pipeline and appurtenant facilities in the cities of San Jose, Santa Clara, and Milpitas. There would also be minor modifications of the existing San Jose/Santa Clara Water Pollution Control Plant to provide additional chlorination. Alternatives to the proposed action include:

- Pipeline Alignment Alternative, to avoid construction of pipelines near residences.
- Flow Allocation Alternative, which would allocate most of the reclaimed water for potable uses. The water would be used for groundwater recharge, mainly using percolation basins.
- Habitat Enhancement Alternative, to also supply water to riparian restoration areas along creeks and rivers in the study area, as well as for potable and other nonpotable purposes.
- No Action.

The draft environmental impact statement (DEIS) was issued August 1, 1995. Responses to comments received from interested organizations and individuals on the DEIS are addressed in the FEIS. No decision will be made on the proposed action until 30 days after the release of the FEIS. After the 30-day waiting period, Reclamation will complete a Record of Decision (ROD). The ROD will state the action that will be implemented and will discuss all factors leading to the decision.

Dated: May 7, 1996.
 Roger K. Patterson,
Regional Director.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 332-360]

International Harmonization of Customs Rules of Origin

AGENCY: International Trade
 Commission.

ACTION: Request for public comment on
 draft proposals for chapters 01-24, 92-
 97.

EFFECTIVE DATE: May 15, 1996.

FOR FURTHER INFORMATION CONTACT:
 Eugene A. Rosengarden, Director, Office
 of Tariff Affairs and Trade Agreements
 (O/TA&TA) (202-205-2595), Chapters
 01-24 Ronald Heller (202-205-2596), or
 Chapters 92-97 Lawrence A. DiRicco
 (202-205-2606).

Parties having an interest in particular
 products or HTS chapters and desiring
 to be included on a mailing list to
 receive available documents pertaining
 thereto should advise Diane Whitfield
 by phone (202-205-2610) or by mail at
 the Commission, 500 E St. SW., Room
 404, Washington, D.C. 20436. Hearing
 impaired persons are advised that
 information on this matter can be
 obtained by contacting the
 Commission's TDD terminal on (202-
 205-1810). The media should contact
 Margaret O'Laughlin, Public Affairs
 Officer (202-205-1819).

BACKGROUND: Following receipt of a
 letter from the United States Trade
 Representative (USTR) on January 25,
 1995, the Commission instituted
 Investigation No. 332-360, International
 Harmonization of Customs Rules of
 Origin, under section 332(g) of the Tariff
 Act of 1930 (60 FR 19605, April 19,
 1995).

The investigation is intended to
 provide the basis for Commission
 participation in work pertaining to the
 Uruguay Round Agreement on Rules of
 Origin (ARO), under the General
 Agreement on Tariffs and Trade (GATT)
 1994 and adopted along with the
 Agreement Establishing the World
 Trade Organization (WTO).

The ARO is designed to harmonize
 and clarify nonpreferential rules of
 origin for goods in trade on the basis of
 the substantial transformation test;
 achieve discipline in the rules'
 administration; and provide a
 framework for notification, review,

consultation, and dispute settlement.
 These harmonized rules are intended to
 make country-of-origin determinations
 impartial, predictable, transparent,
 consistent, and neutral, and to avoid
 restrictive or distortive effects on
 international trade. The ARO provides
 that technical work to those ends will be
 undertaken by the Customs Cooperation
 Council (CCC) (now informally known
 as the World Customs Organization or
 WCO), which must report on specified
 matters relating to such rules for further
 action by parties to the ARO.

Eventually, the WTO Ministerial
 Conference is to "establish the results of
 the harmonization work program in an
 annex as an integral part" of the ARO.

In order to carry out the work, the
 ARO calls for the establishment of a
 Committee on Rules of Origin of the
 WTO and a Technical Committee on
 Rules of Origin (TCRO) of the CCC.
 These Committees bear the primary
 responsibility for developing rules that
 achieve the objectives of the ARO.

A major component of the work
 program is the harmonization of origin
 rules for the purpose of providing more
 certainty in the conduct of world trade.
 To this end, the agreement contemplates
 a 3-year CCC program, to be initiated as
 soon as possible after the entry into
 force of the Agreement Establishing the
 WTO. Under the ARO, the TCRO is to
 undertake (1) to develop harmonized
 definitions of goods considered wholly
 obtained in one country, and of minimal
 processes or operations deemed not to
 confer origin, (2) to consider the use of
 change in Harmonized System
 classification as a means of reflecting
 substantial transformation, and (3) for
 those products or sectors where a
 change of tariff classification does not
 allow for the reflection of substantial
 transformation, to develop
 supplementary or exclusive origin
 criteria based on value, manufacturing
 or processing operations or on other
 standards.

To assist in the Commission's
 participation in work under the
 Agreement on Rules of Origin (ARO),
 the Commission is making available for
 public comment draft proposed rules for
 goods of:

Chapter 01—Live Animals
 Chapter 02—Meat and Edible Meat Offal
 Chapter 03—Fish and Crustaceans,
 Molluscs and Other Aquatic
 Invertebrates
